Barris 62,73 NURSERY CATALOG 1921 Ornamental ... Trees, Shrubs Hardy Perennials, etc.

B.F. Barr & Co.

KEYSTONE NURSERIES
LANGASTER, PA.

Bird's-eye view of our Nursery Office Shipping Department and Greenhouses 940 Columbia Ave., "West Lincoln Highway."

GENERAL DIRECTIONS

IMPORTANT TO PURCHASERS—READ CAREFULLY

Our nursery office, greenhouses, and showgrounds are located at 940 Columbia Avenue (now known as Lincoln Highway), Lancaster. Take either Columbia or Marietta avenue cars. Only ten minutes' ride from the square in the central part of town.

On the Marietta turnpike, our Nurseries are situated, two miles west of Lancaster. Store, 116 N. Queen Street.

Lancaster is centrally placed among many of Pennsylvania's prosperous cities—Philadelphia is 59 miles away; Harrisburg, 38 miles; York, 26 miles, and Reading, 32 miles.

SHIPPING FACILITIES.—The Philadelphia & Reading and Pennsylvania Railroads enter Lancaster, and their lines radiate in all directions. By means of the Pennsylvania Railroad we are placed in quick and easy communication with all eastern cities, and with all through lines to the West. The American Express and Adams Express Companies cover most points.

FORWARDING.—Growing plants and small packages of roots will invariably be sent by express, unless otherwise instructed. The regular-sized plants which we send out are too large to be sent by mail. The rate under which plants and bulbs travel makes this the quickest and most satisfactory way to ship. Large orders of Plants, Trees, etc., may be sent safely by freight. Unless specially instructed, we will exercise our best judgment as to mode of shipment. When desired, small plants and roots can be sent by Parcel Post. A remittance of 10% should be added to the order to cover postage. Customers who desire us to prepay express charges may remit enough to cover, and any surplus will be returned; or, if preferred, extra plants will be sent to make up the difference.

TERMS.—Cash, unless otherwise specially arranged. Orders from unknown correspondents, without satisfactory commercial rating, should be accompanied with a remittance to cover the order, or with satisfactory reference.

REMITTANCE should be made by Post-Office or Express Money Order, Registered Letter, or Bank Draft. Postage stamps may be sent for amounts under \$1.00.

QUALITY OF STOCK.—We propose to send out only first-class stock, true to name. No substitutions will be made, unless by request, or by permission.

PRICES.—The prices in this catalogue are net, and will not be deviated from, as it is our aim that all customers shall be treated alike.

GUARANTEE.—No risk to you. We guarantee every plant from our Nursery, and give new ones for those that do not grow satisfactorily. The cost of planting and transportation is borne by the purchaser.

Prices in this Catalog supersede previous catalog quotations and are subject to change without notice, owing to conditions not within our control.

While we exercise the greatest care to have all the Trees, Shrubs, and Plants, etc., genuine and believe them to be true to label and hold ourselves prepared to refund the purchase price or replace on proper proof all that prove untrue, we do not give any warranty, express or implied; and in case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the goods.

B. F. BARR & CO.

Keystone Nurseries

Lancaster. Pa.

INTRODUCTION

ANCASTER COUNTY, PENNSYLVANIA, the world's richest agricultural County, has been famous for generations as the home of extraordinary agricultural products. Plant life of all kinds develops to the highest state of perfection in the rich soil of Lancaster County.

In the midst of this wonderfully rich land lies the KEYSTONE NURSERIES of B. F. BARR & COMPANY. These Nurseries are built about an ideal that makes for real true service.

With the knowledge obtained by long experience, with ample area, and with trained help, we stand in a position to view the possibilities

and opportunities to serve the garden lovers of this country. It is our earnest desire to furnish the patrons of the BARR NURSERIES the ultimate in everything for the garden.

As a service to our friends and customers, we have established a Landscape Division whose business it is to make easy for you to acquire that dream of every home owner, a beautiful, artistic surrounding that makes life a pleasure. We are glad, through our Landscape Division, to furnish ideas, plans and full information for planting the gardens of new homes and the re-establishing of older homes that have not had exactly the proper attention.

Here at Lancaster, at the famous KEYSTONE NURSERIES, will be found a wide range of garden plants—from herbaceous perennials to ornamental evergreens, deciduous trees, greenhouse plants, seed and nursery stock of every description—specially selected with a view to making the home surroundings ideal.

Let us help you to realize that dream garden of which you have thought so much but may not have realized because you have never known how easy it is to establish a real garden. B. F. BARR & COMPANY,

KEYSTONE NURSERIES, Lancaster, Pa.

P. W. DE HERTOGH Landscape Architect, Manager Landscape Division.

JOHN SCHMUCKLI Shipping Division.

B. F. BARR Founder and General Manager.

HARRY HAVERSTICK Landscape Division.

LOUIS BENNER Production Division.

The pictures of the principal executives are shown in the idea that others probably feel as we do. We like to know the men we do business with. The personal element helps to understanding, making it more pleasant and easy to do business with men you know.

I hope you will find in this book some new inspiration, and assuring you we will do all in our power to merit a continuance of your confidence and valued patronage.

B. F. BARR.

BARR'S

Landscape Architectural Service

To you who wish an effective setting for your **home**, whether it be bungalow and fawn, or mansion and estate, all of which have their special conditions and requirements that can only be successfully co-ordinated by one well trained in the principles of land-scape design and possessing a knowledge of plant material. Practical and trained architects have charge of this department and will advise you as to how you can secure the utmost beauty from your grounds, regardless of size or where located.

Put your planting problems up to us. BARR'S ARCHITECTURAL SERVICE will suggest varieties best adapted to your purpose, their arrangements and cost. All of this will be done in a non-technical way, and revised if necessary until the buyer is assured of the result he wishes.

With the use of our **Information Blank**, which will be mailed you on request, and when filled out by you and returned to us we will draw a plan for you. This can be done by mail and without visiting your property, except in complicated plantings or large estates, parks, cemeteries, school-yards, etc., when one of our architects will call on you personally by appointment and view the grounds you wish improved and beautified, before making a plan.

A fee is charged for making plans to cover their cost, but you are given credit for the amount when your order is placed for the required stock. This is done to prevent curious persons from asking for plans with little or no intention of making use of them.

For letter aid, no charge is made or obligation placed upon the correspondent, nor is there a charge made for consultation, no matter where you are located. Let us advise you as to how you can secure the utmost beauty and delight from your out-door living room.

DECIDUOUS TREES

Government Forest Service men place a value on a row of Cottonwood Trees a mile long, forty years old, at three thousand two hundred dollars, for their lumber value, in addition to their shade value, representing even larger figures.

Had the row been Norway Maple, American Elm, Oaks, Ash, or Beech, their value would have been even larger. Equally valuable results can be secured from similar planting in almost any neighborhood.

Not every one wishes to plant a row of trees a mile long nor wait fifty years for the cash value referred to, but these figures establish the fact that money put in shade trees is wisely invested.

If you were looking for a home, one with large Trees, Shrubbery, Hedges and Flowers would appeal to you most, wouldn't it? You often hear a friend say, "I wish I could buy that home," because of the fine trees and shade. Their value cannot be measured, but it's there just the same.

You like to be out of doors in the summer, say on Sunday afternoon and other such times. You are not comfortable in the sun. Where will you get more comfort than under the shade of a tree? Just the place to entertain your friends or to read a book or paper.

The middle of your yard should not be planted. Leave an open space for grass, but plant trees around the borders in groups, irregularly, inside a privet hedge. Groups of Shrubbery help to make the ground more homelike, to say nothing of the charm of their flowers. How often do we see a fine grove of trees, but something is lacking? Shrubbery will correct this at very small cost. Arrange your trees so as not to cut off your best views, but try to plant, if at all possible, one or more tall growing trees on the southwest side of the house to shade the house from the afternoon sun. They seem to absorb the heat, and in the hottest summer day it is always fairly cool beneath their protection.

NORWAY MAPLES

Acer platanoides. Norway Maple. Typical Maple leaves, large and bright green, fading to gold in the fall. Trunk and branches are sturdy and strong, lending an effect of ruggedness. Growth is fast. Branches and foliage are thick and compact. The tree is large, towering 50 ft. high when fully grown. Splendid trees, most beautiful and desirable. For lining the side of lanes and roads, or a lawn; to protect the house from sun and weather; for shade, for beauty and satisfaction, and for real, permanent worth in all landscape planting, there are no other trees in its class. Norway Maples are at home in the mountains, but will thrive at any elevation and in nearly any soil to be found in this

CATALPA BUNGII.

BIRCH · Betula

The light airy appearance of the Birches, together with the quick growth and gracefully-drooping branches, make these trees indispensable. They thrive on high, dry, or stony soils, as well as in the ordinary places. Plant in spring or early fall.

BEECH · Fagus

The Beeches are quite dignified trees, their habit being very distinct and characteristic. When planting or transplanting they require severe pruning. Beeches thrive in almost any situation. Among several varieties, these are most popular.

- F. ferruginea. American Beech. 40 to 50 ft. A superb tree, of large, spreading growth. Conspicuous for its gray bark. On lawns it is usually allowed to branch close to the ground, making a beautiful specimen. A grove of lowbranched Beeches will be beautiful for the present generation and for those to come. Each. 5 to 6 ft., low-branched and bushy........\$500
- F. sylvatica. European Weeping Beech. This unique form of the European Beech is well known by its tortuous outline, striving upward and at the same time drooping in all directions. Picturesque arches and garden-houses can be created by the skillful use of this tree, which will become more effective from year to year.

 4 to 5 ft., low-branched and bushy........\$6 00
- F. purpurea. Copper or Purple Beech. Similar to the Purple Beech except that the leaves are not as highly colored. Each. 5 to 6 ft., low-branched and bushy.........\$500

SWEET GUM · Liquidamber

L. styracflua. 40 to 50 ft. A stately tree, with star-shaped leaves, which change to singularly brilliant colors in the fall. In this respect it equals the Sour Gum. The bark is rough and corky. Prefers low, damp places, though it succeeds as well in higher ground. A good tree for street or avenue planting. Prune closely when transplanted. Spring planting is best. Each.

4 to 5 ft. \$2.00

10 to 12 ft. specimens 8.00

EUROPEAN LARCH · Larix Europea

An upright-growing tree, with light green foliage. The branches when young have a drooping habit. A valuable tree where quick results are required, and a good sort for screening unsightly buildings, owing to its rapid growth and dense foliage. Makes a beautiful specmen when standing alone.

4 to 5 ft

THE TULIP TREE · Liriodendron

L. tulipifera. Tulip Tree. 50 to 60 ft. The tulip tree is noted for its tall, straight bole and narrow crown. It has large leaves, and in late May or early June has a profusion of yellow tulip-like flowers, from which it derives its name "Tulip Tree." The old seed-cases hold on until pushed off by the new growth the following year. Altogether it is a very unique tree, and once known is never forgotten. A good street tree. Prefers damp soil, but thrives anywhere. Plant in spring and prune close.

THE MAGNOLIA

It would be almost impossible to speak too highly of Magnolias; they are very beautiful trees for lawn planting. Nothing else gives such a profuse display of bloom. All have rich green foliage which is attractive throughout the growing season. They can either be trimmed up to a single stem-tree form, or allowed to grow bushy as shrubs, in which form the height could be kept to within 10 to 15 ft. When wanted in tree form, it should be stated when ordering.

M. Lennei. Large Red Magnolia. 20 to 25 ft. The large, cup-shaped, deep red flowers are beautiful and unlike those of any other sort. A few flowers appear from time to time all summer.

great profusion, followed by red fruit. Each.
3 to 4 ft\$2 00
4 to 5 ft

THE OAKS · Quercus

The Oaks are not all slow-growing, as many suppose, but keep pace with most other trees, and are superior to all in view of their rugged character. Many are of great beauty, for avenues, parks, public grounds and similar places. Where they can be given room to develop, they will prove to be very beautiful. When transplanted they require severe pruning, which will enable them quickly to recover and make rapid growth. The best popular kinds, on which every one may rely, are mentioned.

Q. alba. White Oak. 60 to 75 ft. The most notable of all hardy American Oaks. Large-growing, forming a wide spreading head when fully developed, and huge limbs. The foliage

***	assumes a light purplish hue in late autumn.

BARR'S GUARANTEE means no risk to you. We guarantee every plant from our Nurseries, and give new ones for those that do not grow satisfactorily. The cost of transportation and planting, however, is to be borne by the purchaser. In other words, Barr's trees, plants and shrubs must grow to your satisfaction, otherwise we replace them free of charge, or refund your money.

A PLEASING EFFECT OF JAPANESE MAPLES.

ORNAMENTAL SHRUBS

This class of home planting is beautiful in its dense leafiness, still more beautiful in its countless flowers, and the varying sizes of the plants make them suitable for planting in every lawn. No planting, whether large or small, is complete without them. They are very suitable for planting around the outer edges of your lawn, in the foreground of a group of trees, along walks and drives, and the taller varieties can be planted in front of some unsightly object, thus screening it from view.

They look better when three or more of a kind are grouped together, if the size of your lawn will permit it. Care should be taken when grouping them together to have the dwarf varieties planted in front of the others. The low growing varieties look very nice planted around the house and porch foundations.

The selection of shrubs which we offer contains the best, the most useful of those now in the nursery trade, and all have been tested and found desirable for use in this locality.

AMYGDALUS · Almond

A. nana. Flowering Almond. Dwarf. Pink and white. About May 1, before the leaves appear, the bare branches are clothed with a profusion of double flowers. 2 to 3 ft.........................Each, 75c

ACANTHOPANAX · Bush Aralia

ARALIA

A. Spinosa. Good for tropical effect. Leaves 3 to 4 feet long; branches upright. Flowers in July. 6 to 8 ft.................. Each, \$1.50

ARONIA

AZALEA

(See also page 20)

Native and Chinese Varieties

BERBERIS · Barberry

B. Thunbergii. Japanese Barberry. A very popular low hedge-plant of great hardiness, and soon becomes such a dense mass of thorny canes that dogs and cats cannot pass through. Flowers followed by bright red berries that remain on plants till February. Foliage small, dark green, turning to brilliant colors in fall. Effective for use in edging shrubbery or in masses.

CALYCANTHUS · Sweet Shrub

BUDDLEIA · Butterfly Bush

BERBERIS THUNBERGII.
The natural growth is excellent for grouping or hedges.

CORCHORUS JAPONICA, F1.-P1.

CARYOPTERIS · Blue Verbena Shrub

CERCIS · Red Bud

C. Canadensis. American Red Bud. Splendid for wood land, moist soils. The branches are completely covered with pink flowers in April. 3 to 4 ft.....Each, \$1.25

CHIONANTHUS · White Fringe

CLETHRA · Sweet Pepper Bush

C. alnifolia. Sweet Pepper Bush. Medium. In midsummer this attractive shrub bears an abundance of upright spikes, crowded with white fragrant flowers, from which it gets its name. 2 to 2½ ft......Each, 75c

CYDONIA

CORNUS · Bush Dogwood

These plants are attractive the year round. In summer or early spring they bear large panicles of flowers which are followed by brightly-colored berries. During

the winter their brightly-colored twigs stand out in strong contrast against the snow or against a dark background. To be sure of an abundance of bright twigs in winter, prune often enough to insure plenty of young growth.

C. paniculata. Panicled Dogwood. 6 to 8 ft. Upright in habit. Branches gray, leaves dull green and whitish below. Fruits white, with red stems.

C. Aurea. Golden Twigged Dogwood. Medium growing; bright yellow bark all winter. 3 to 4 ft.... Each, 50c C. Florida. See Trees. C. Florida Rubra. See Trees.

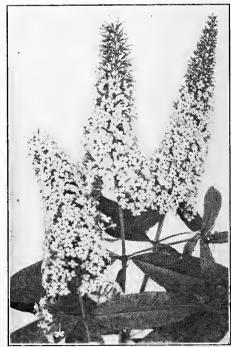

CORCHORUS · Kerria

C. Japonica. A handsome small shrub, bearing single yellow flowers throughout the summer. The green branches form a decided contrast to the other shrubs in winter. 2½ to 3 ft.......Each, 75c

CORYLUS · Hazel

C. avellana purpurea. Hazel. Tall. Where one wants a color contrast in a border planting, this is an excellent shrub. The large leaves are at first almost black, but later they fade to a light purple. Good as a specimen plant, or in groups. 2 to 3 ft............Each, \$1.00

C. Cosford's. Thin-shelled. The best thin-shelled hazel, ornamental as well as useful. 3 to 4 ft......Each, \$1.25

BUDDI FIA VARIABILIS MAGNIFICA.
Butterfly Bush (see page 11).

Ornamental Shrubs

CRATÆGUS · Hawthorn

Dense shrubs of excellent habit, having fine foliage, a profusion of bloom, followed by red haws. The foliage assumes brilliant coloring in the fall.

CALLICARPA · Purpurea

A splendid berried shrub for the border, or planted in clumps on the lawn it grows about 3 ft. in height. Its branches curve gracefully, and are covered in August with tiny pink-tinted flowers, followed in September by great masses of violet-purple berries, making it a very unusual and showy plant. 2 to 2½ ft......Each, 75c

DEUTZIA

The plantings of shrubbery would indeed be uninteresting without the dainty Deutzias. Each spring they are covered with beautiful, bell-shaped flowers that are particularly attractive. No collection is complete with-

out them. By pruning in summer, after the plants have passed out of bloom, one can insure a profusion next year.

D. Lemoinei. 3 to 4 ft. Similar to *D. gracilis*, except that it is taller and more vigorous in growth. Flowers pure white in large panicles.

DEUTZIA CRENATA.
The latest of the Deutzia to bloom.

D. gracilis. 2½ to 3 ft. The best low-growing
flowering shrub for a low hedge, or also as a
border for plantings of larger shrubs. Flowers
white, bell-like. Each.
1½ to 2 ft\$.50
2 to 2½ ft
D. Gracilis Rosea. Pink form of the gracilis va-
riety. Dwarf in habit. Each.
2 to 2½ ft\$.75

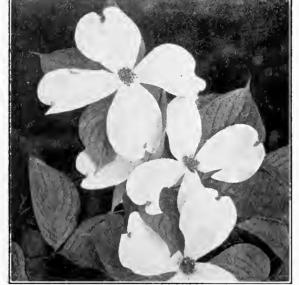

- E. alatus. Winged Burning Bush. You will want this curious plant for variety's sake. It has corky, winged bark. Small yellow flowers in June. The foliage takes high coloring in the fall.

 2 to 3 ft. \$1.00
 3 to 4 ft. 1.50
- E. Europaenus. American Burning Bush. The flowers come in June and are inconspicuous, but they are followed by a bright-red deeply-lobed capsule, holding the seed, which is decidedly attractive in late fall and early winter. 3 to 4 ft......Each, 75c

EXOCHORDA · Pearl Bush

E. grandiflora. Pearl Bush. The most brilliant shrub in its season, when clothed with a mass of dazzling white flowers. The plant is rather thin in habit, and its foliage is uninteresting, but these defects can be somewhat overcome by pruning.

		Each.	Ten.
2 to 3	ft	.\$.75	\$5.00
3 to 4	ft	90	7.50

FOLIAGE AND FLOWERS OF DOGWOOD. (See page 6.)

Six Plants for the price of Five, where price Each only is quoted.

LONICERA, Bush Heneysuckle.

ELAEAGNUS · Oleaster

E. angustifolia. Russian Olive. Tall. The foliage is a very handsome, rich silvery white; flowers small golden yellow, followed by yellow fruit covered with silvery scales.

3 to 4 ft......Each, \$1.00

E. longipes. Japanese Oleaster. Similar to above except that the branches are reddish brown. foliage grey on under side; orange-colored fruits. Fruit edible, enjoyed especially by birds.

FORSYTHIA · Golden Bell

No garden would be complete without one or more specimens of these harbingers of spring. With the first warm spring days they push out golden yellow flowers, and there are so many the plant looks like a huge, yellow ball. It is one of the earliest of the flowering shrubs.

F. suspensa. Drooping Golden Bell. Tall. Has a drooping habit, and so it is very valuable in covering banks or walls. The canes are frequently 6 and 8 ft. long. It can also be trained over trellises. 3 to 4 ft......Each, 75c

F. viridissima. Tall. Except for the habit, one could hardly distinguish this form from the F. suspensa. It is more upright, the foliage is a trifle darker green in color, and the flowers a little lighter yellow. Blooms with F. suspensa. 2 to 3 ft......50e 3 to 4 ft.....75c

HALESIA · Snowdrop Tree

H. tetraptera, Snowdrop Tree. Tall. Before the foliage appears in May, this tree-shrub, or small tree, is covered with a bewildering cloudy mass of small, snowy white flowers. They resemble snowdrops. When set against a dark background, it is a truly wonderful sight. 3 to 4 ft......Each, 75c

HIBISCUS · Rose of Sharon

Althaa, or Rose of Sharon. Tall. This wellknown plant is one of the handsomest of our late-flowering shrubs. It blooms during July and August when flowers in the shrubbery are getting scarce. The plants are very stiff and upright in habit, somewhat formal. The flowers are single or double and in all shades of colors from white to nearly black. These should be pruned in winter or early spring. This will not interfere with blooming, as would be the case with most shrubbery. Make good hedge-plants and stand trimming well. Special price on quantities.

H. Syriacus. There are many varieties of this good, old-fashioned plant and, from this mass of forms, we have selected nine which to us seem the best to offer. They are:

Beatrice. Single; pink, red center.

Duc de Brabant. Double; red, shaded pink.

Pæoniflorus. Rosy pink.

Rubra-plena. Double; magenta. Totus albus. Single; pure white.

2 to 3 it., 50c each; 3 to $3\frac{1}{2}$ ft., 75c each; $3\frac{1}{2}$ to 5 ft., \$1.00 each. Larger sizes, \$1.25 to \$1.50 each.

SHRUBS AND THEIR USES

The right shrub in the right place usually gives pleasing results, but it follows that unless you are familiar with the adaptability of shrubs, to meet the conditions that may be found in your planting, it is extremely difficult to select just the right one. Let our Landscape Department help you.

HALESIA, Snowdrop Tree.

HYPERICUM AUREA

Lemon yellow flowers; dwarf habit; useful in borders; bloom in midsummer most profusely. 1 to 1½ ft......Each, 50c 1½ to 2 ft......Each, 60c

HYDRANGEA

All Hydrangeas are well adapted for growing as specimen plants, to use as low hedges, or mixed with other shrubs. Their foliage is handsome the entire year, and there are no other shrubs grown which produce bloom in such size and quantity Everybody knows the fall-blooming sort, *H. paniculata grandiflora*, which produces heads of flowers of great size, which remain upon the plants for weeks in good condition. There is an early blooming variety, *H. Hills of Snow*, which flowers in July. To get the best results from these, pruning should be done during winter or early spring. The harder the pruning, the larger the flowers.

- H. Japonica hortensis Otaksa. Large blue or pink flowers, borne in broad heads of immense size. The colors are sometimes not constant. If blue flowers are wanted apply iron filing to the roots, otherwise they will be pink.

- H. paniculata. Early-flowering. The flowers are borne in large, upright panicles, which are not so solid as in the next one. Blooms in July.

 3 to 4 ft......Each, 75c
- H. paniculata grandiflora. The common Hydrangea of lawns. Good as a low hedge or mixed with shrubbery. Give it a heavy background. Each. Ten.

HYDRANGEA PANICULATA GRANDIFLORA.

HYDRANGEA. "HILLS OF SNOW."

- H. paniculata grandiflora. Standard. Tree-like forms of the above and particularly useful in formal gardens. Prune heavily to keep them in shape and producing large flowers. Vigorous plants. 3½ to 4 ft. stems.....Each, \$2.00 to \$3.00
- H. quercifolia. Oak-Leafed Hydrangea. Foliage large, shaped like oak leaves; flowers white; bloom in August Each.

 1½ to 2 ft. \$1.25
 2 to 2½ ft. 1.50

KERRIA · Corchorus

LIGUSTRUM · Privet

The Privets are valuable because of their dark green foliage, which can be used to great advantage as a background for other and more showy flowering plants. They are used, to a very great extent, for hedges, and the California Privet is the most popular. We make a leading specialty of the latter, of which we grow 100,000 annually.

L. Ibota. Japanese Privet. Upright in growth and foliage persists until winter. Very hardy.

			Ea		Ten.
3	to	4	ft\$.50	\$3.00
4	to	5	ft		

L. Ibota Regelianum. Regel's Privet. This differs from the preceding kind in that the ends of the branches droop, which produces a very attractive and distinctive characteristic possessed by none of the other forms of Privet.

		Each.	t en.	100.

		ft60c		
3	to 4	ft75c	5.00	35.00

California Privet

L. ovalifolium. California Privet.
Too well known to need describing. Besides its use for hedges, it is excellent for specimens.

LONICERA · Honevsuckle

The Honeysuckles are among the very best shrubs grown. They have small white, yellow or pink flowers that are fragrant and are followed by bright red or yellow berries that persist until late fall. Birds are fond of these fruits.

L. fragrantissima. Fragrant Honeysuckle. Tall. Blooms among the earliest, sometimes in March. Flowers white, tinged with pink and are very fragrant. Fruit scarlet; foliage almost evergreen. 2 to 3 it.......Each, 50c

POTENTILLIA

P. Fruticosa. Dwarf plant with feathery leaves. Cromo yellow flowers in June. Each. 1½ to 2 ft.......75c

PHILADELPHUS · Mock Orange

An old-fashioned plant that carries with it an abundance of fragrance and fragrant memories. There should be one or more of these plants among the shrubbery for perfume. They are also attractive all the season when grown as specimen plants. Prune immediately after flowering so as to get a good supply of flowers the next year.

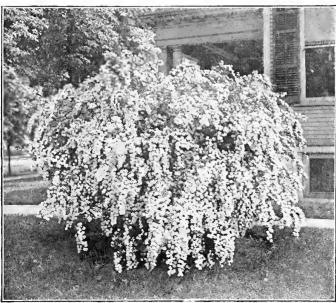

P. coronarius. Old-fashioned Mock Orange. Somewhat stiff in habit but still a delightful plant for the lawn. Flowers very fragrant. Good screen plant. 3 to 4 ft......Each, 50c

Effective planting like this may he secured by the use of our CALIFORNIA PRIVET, TREES AND VINES.

RHODOTYPOS · White Kerria

RHUS · Smoke Bush

SPIREA VAN HOUTTEI.

RUBUS

RIBES · Currant

ROBINIA: Rose Acacia

ROSA · The Rose

In this list we mention only those which will prove satisfactory in connection with shrubbery. For the others which are grown for cut-flowers, see pages 29-31.

R. rubiginosa. Sweetbriar. Another old-time favorite, bearing single pink roses. Even the foliage has a fragrant odor, particularly when the dew is on. Pot-grown, 2 years old.......Each, 75c

dew is on. Pot-grown, 2 years old......Each, 75c R. Carolina. Upright in habit; flowers 2 inches across; fragrant and single pink blooms in July and August. 2-year plants......Each, 75c

R. rugosa. Japanese Rose. Flowers 3 inches across are not uncommon. The foliage is a pretty, dark green. Is cat- and dogproof. The great red hips of fruit remain all winter. White or red varieties may be had.

1½ to 2 ft.......Each, 75c
R. rugosa, Thomas Lipton. Improved Rugosa. Semi-double pink flowers.

2-year plants.....Each, 75c

SPIRÆA

The Spireas have a longer-blooming season as a genus than any of the other hardy shrubs grown. Early in May they commence to bloom, and some of the species are still blooming when the frosts come. Prune the spring-blooming kinds after blooming in the early summer. The late bloomers, like Anthony Waterer, prune in winter.

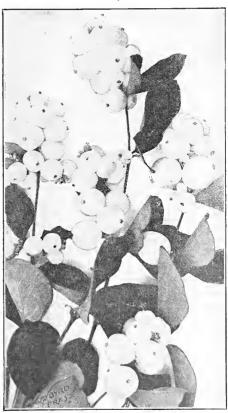

S. Bumalda, Anthony Waterer.

D warf. The crimson flowers are borne freely in flat heads, which show first in June and

continue in bloom to some extent all summer.

Each. Ten. 50c \$4.00 2 to 2½ ft. 75c 6.00

S callosa. Pink flowers in flat clusters appear in early July and for some time afterward. Good for low border. 2 to 2½ ft......Each, 60c

SNOWBERRY,

SPIKEA PRUNIFULIA

- S. opulifolia. *Nine-bark*. An attractive native shrub with white flowers, borne in large panicles in early June, followed by red seeds.

 3 to 4 ft......Each, 50c

SPIREA PRUNIFOLIA, Fl.-Pi.

SAMBUCUS · Elder

- S. acutifolia. Fern-leaved Elder.
 One of the most attractive shrubs.
 3 to 4 ft......Each, 75c

STEPHANANDRA

3 to 4 ft.......75c

STYRAX

S. Japonica. An exceedingly desirable shrub, graceful branches, tall growing; fragrant white flowers in June. 3 to 4 ft......Each, \$1.00

SPIREA ANTHONY WATERER.

SYMPHORICARPOS · Snowberry

- - S. vulgaris. Indian Currant. Also best used in masses, to show off its clusters of small red berries, of which there is an abundance. Has a graceful pendent habit.

				Each.
2	to	3	ft	50c
3	to	4	ft	75c

Our Landscape Department Is at Your Service.

PERSIAN LILAC

SYRINGA · Lilac

The very fragrant flowers and the attractive foliage have made this a very great favorite for many years. The lilac can be used as a specimen plant, or in masses, or even for hedges. Prune after flowering and then remove old wood only.

S. Josikæa. Hungarian Lilac. Valued for the lateness of its flowers, which are light violet in

- S. Persica Rothomagensis. Rouen Lilac. deep purple blossoms are borne in loose panicles in great quantities. Plant has a very grace-
- S. villosa Emodi. The white or pale lilac flowers are borne in narrow spikes and they come after all other Lilacs have passed.
- S. vulgaris. Common Lilac. The old standby in the gardens of our grandfathers and just as
 - good now as it was then.
- S. vulgaris alba. White Lilac. Except that it has white flowers, it is the same as the preceding.

FRENCH LILACS

These Lilacs, so named, are improved forms of Syringa vulgaris, the only difference being that they have larger or double flowers and a variety of shades of color.

Charles X. Deep purple flowers, tinted red, borne

Mme. Lemoine. Beautiful double white.

Marie Legrave. An excellent single white.

Rubra de Marley. Deep lilac; one of the best.

Souvenir de Ludlow Spaeth. Single, very dark Large specimens of the above five varieties-

Each. \$3.00 to \$5.00.

Five Ready Made Special Offers

The "CORNER GROUP" of Selected Flowering Shrubs, \$13.00

Following is a selection of 37 plants which we believe would be entirely satisfactory and pleasing to a majority of people; to be used as a compact group for the corner of lot or building. The taller kinds (marked "T") should naturally furnish the background, against either the wall or fence; the medium growers (marked "M") should come next; with the dwarf growing sorts (marked "D") as an outside border.

the 14 Shrubs for \$6.50

VIBURNUM PLICATUM, Standard Form.

TAMARIX · Tamarisk

T. Africana. The light airy foliage and pink blossoms of this shrub make it a decidedly attractive plant to have in the border. Flowers in June.

3 to 4 ft......Each, 60c

T. Hispida. aestivilis. Similar to above except that it flowers later in the summer. Rose pink blossoms.

3 to 4 ft......Each, 75c

VIBURNUM · Snowball

The most common one is the old-fashioned Snowball. There are others; all are very attractive, and the colored fruits add value.

V. Lartago. An upright shrub; fruit blue black; white flowers in May and June. 3 to 4 ft...... Each, 50c

V. Opulus sterile. The Snowball. A sterile form of the preceding, and the common Snowball of the gardens of our grandmothers. The flowers are produced in large globular clusters. 3 to 4 ft.......................Each, 50c

V. plicatum. Japanese Snowball. Similar to the preceding in flower and preferred by some. The habit of the plant is more compact and the rugged, green foliage very attractive. It remains in bloom longer. 3 to 4 ft.

Each, 75c

WEIGELA · Diervilla

What a quantity of bloom these beautiful shrubs add to spring's floral display! They are necessary for shrubbery borders, large or small; their pretty flowers, resembling in form the honeysuckle, come in long sprays. Prune early in the summer to secure good flowering wood for the following spring.

W., Eva Rathke. Rich, deep scarlet. Blossoms a week after the other kinds.

W. rosea. The rose-flowered kind, grown for years and still a most worthy kind. 3 to 4 ft.......Each, 50c

WEIGELA ROSEA.

Foundation planted with assorted small evergreens planted by us, photographed immediately after planting,

Broad-Leaved Evergreen Shrubs

The evergreen shrubs make a brave display in winter, when the landscape is almost shorn of its beauty

Often this period of the year is overlooked in the landscape planting, but when such pleasing results can be obtained as these shrubs create, one should not neglect to have some of them.

They produce cheerful effects during the winter period, and the growing season finds their glossy

leaves vying with those of the deciduous shrubs for first place in the grower's heart.

A deep, cool, moist soil with proper drainage is ideal and a shaded situation is often preferable. as bright sunlight during the winter months is liable to injure the foliage of some of them.

ABELIA

A. grandiflora rupestris. 5 to 6 ft. Beautiful glossy foliage and, where protected in the North it is evergreen. The small waxy white flowers are slightly tinted pink. 3-year plants.....Each, 75c

ANDROMEDA CATESBAEI · Lencothoe

Large glossy green leaves; graceful arching branches; white flowers resembling Lily of the

AZALEA

BARR'S EVERGREENS. Have you ever considered the splendid color effect that can be gained from the intelligent use of evergreens? Our Landscape Department will be glad to advise you and show you just how to obtain the most from evergreen colors. A rough sketch of your place, with relation to the points of the compass (giving size of lawn, all directions, tegether with photo, if you have one) will bring full information as to how to plant.

MAHONIA.

COTONEASTER

MAHONIA · Grape

RHODODENDRON

The Rhododendron, when properly used, gives effects which cannot be secured by any other class of plants. Is there a shaded corner about the place, or is the north side of the house occupied? Such a position would be ideal for the Rhododendron, but the bed must be prepared with care. Woodland and natural plantings may frequently be improved by these glorious plants. Good plants and intelligent preparation of the bed will insure good results. Spend a little time on it, and your extra care will be paid for. It is permanent results you are seeking.

Making a Rhododendron Bed. In making a Rhododendron bed, dig out the soil to a depth of about 4 ft. and fill in the bottom with about 2 ft. of broken stone or similar material. Finish with good top soil; leaf-mould is better if it can be procured. Should the soil be heavy, add a proportion of sand to lighten it. Good drainage is essential. Provide a mulch by covering the top of the ground with a liberal amount of well-rotted

stable manure. Such a bed will be cool and moist all the time, reproducing the conditions under which the plants thrive so wonderfully with only the care Dame Nature gives them. Do not make the common mistake of digging the soil in an established bed, as the Rhododendron is a surfacerooting plant and suffers from this disturbance.

CHOICE HARDY HYBRIDS

Named Varieties in Red, Crimson, White, Pink and Purple.

YUCCA · Adam's Needle

PACHYSANDRA TERMINALIS Japanese Spurge

KALMIA LATIFOLIA · Mountain Laurel

Dark green foliage; showy masses of pink flowers in June. Each 18 inch \$2.25 24 inch 3.00

Six plants of the same variety at five times the price of one.

SPECIAL OFFER

2 Globe Arborvitaes 12 inch 2 Pyramidal Arborvitaes 18 inch 2 Golden Cypress 15 inch 2 Mughus Pine 12 inch

The above 8 fine shaped trees for \$10.00 postpaid.

What's the Matter?

It all depends on your frame of mind. When one is in a wrong frame of mind, it is equally difficult to plan and plant a garden as it is to do any other work when we are out-of-sorts. The problems of garden planting and building are many and various, and we are often ready to ask ourselves what is the matter. Give us a rough bivision will be pleased to tell you what is the matter and how to correct it.

Just imagine how much the evergreens add to the appearance of this suburban home. Many homes could be thus decorated. Only evergreens can give the richness and air of refinement, both winter and summer. Think of the enjoyment the owner of this place derives. We planned and planted the above, and will do the same for you if given the opportunity.

Coniferous Evergreens

When it comes to planting about the home, some wonderfully fine effects can be made by using the different varieties of Evergreens. There are kinds that reach 75 feet in height with pointed tops, like Douglass Spruce, or the Firs, Hemlock, and the Pines. Most of these trees are very dark green. Large spaces are required for these trees. In small lawns medium-sized Evergreens are needed. Blue Spruce, Retinospora, Junipers and the Arbor Vitaes are adapted to such planting. In smaller lawns, as well as larger ones, there are opportunities for lining walks, and making borders and beds of Evergreens. No other kind of planting is more attractive to you, who live in the home, than a low hedge of Evergreens surrounding you lawn. It gives your home a cheerful appearance in winter, as well as in summer.

A bed of Evergreens is a wonderfully attractive thing. In it you can plant the golden Arbor Vitaes, Retinosporas, Junipers, the bluish-tinged Spruces, Firs, and Cedars, and the dark and light-green Spruces, Pines, Firs, and Hemlocks, all contrasting splendidly with each other and with their surroundings. All the year round such a bed will attract attention. If you have an unsightly bank, cover it with dwarf or trailing Junipers.

FOUNDATION PLANTING. Nooks and corners about the foundations and in front of the porch planted with Evergreens produce a cheerful approach in winter when all vegetation is asleep. We suggest the Retinosporas, Arbor Vitaes, Junipers and Taxus for this purpose, and will be well pleased to suggest suitable varieties for the foundation of your home or any part of your grounds.

Our Evergreens are carefully dug with a ball of soil and baled in burlap (see cuts on page 22). This is done so that the roots are not disturbed. To obtain the best result, the roots of an Evergreen should never be exposed to the sun or wind. In planting Evergreens, firm the ground thoroughly when setting the plant, which should be put about two inches deeper than it grew in the nursery. Water very thoroughly after they are planted. They should also be watered at intervals during the summer until well established in their permanent quarters. All Evergreens baled and burlaped at prices quoted.

All Evergreens thrive best in rich soil. Use bone meal or well-rotted manure if soil is poor, but never use fresh manure.

All our Evergreens are carefully dug with ball of earth, and burlaped, assuring safe transplanting, at prices quoted.

ABIES . The Firs

ABIBS The Fits
White Fir. Abies Concolor. Beautiful, soft sil-
very foliage, very hardy. Not particular as to
soil. Each,

PINUS . The Pines

The Pines endure a wide range of climatic conditions. They are natives of lowlands and mountainous regions, and withstand well the cold, bleak winds to which they are subjected. They are mostly of upright habit, growing rapidly, and not particular as to soil. Pines are very ornamental and useful on lawns and public grounds. They are so diverse in character that species may be selected for even the smallest area as well as for vast estates. In groups, shelter belts or as tall screens their value is highly appreciated.

Austrian Pine. Pinus Austriaca. A tall, massive tree, with spreading branches, heavily plumed with long stiff, dark green needles.

All Evergreens should be thoroughly watered and sprayed with a full force of water from the hose during the hot summer months and late fall, before freezing weather, especially the first season after planting.

ARBORVITAE.

TAXUS · Yew

The Yews would always be favorites, even without any Old World associations. They will thrive best in partly shade. Try them on the shady side of your house. There are many varieties, among which we recommend the following:

Japanese Yew.	T. Ci	ıspidata.	The	rich da	ark
green foliage	is typica	d of this	family.	It mal	kes
really a bushy	y shrub.	The har	diest of	all Ye	ws.
Rather rare.				ı. Te

			ft		40.00
$1\frac{1}{2}$	to	2	ft	6.00	

Spreading Yew. T. Baccata repandens. For a rich, handsome ground cover nothing can excel this species. Just the thing for the edge of foundation planting on the north side of the house and shady places. Each. Ten.

house and shady places. Each. Ten. \$ to 10 in. high. \$3.00 12 in. high, 1½ to 2 ft. spread. 4.00 12 in. high, 2 to 2½ ft. spread. 6.00

Canadian Yew. T. Canadensis. Low spreading growth, one of the few evergreens that thrive best under partial shade of trees or buildings. Try a few in groups in a shady location where other evergreens fail.

THUYA · Arborvitae.

Highly ornamental trees, some varieties upright habit, others ball shaped; thus they are appropriate for small lawns as well as large areas. Their clean, neat, compact appearance and the soft golden and different shades of green foliage, in many cases so brightly colored, make them useful in grouping, beddnig, bordering and formal gardening, for cemetery and lawn specimens, for hedges, screens, window boxes, vases, and foundation planting. When so used for hedges they make a splendid background for other ornamental plants and provide protection for the flower and vegetable garden.

American Arborvitae. T. Occidentalis.

THE HOME SURROUNDINGS. What constitutes home surroundings is a matter of personal taste. A planting may be equally correct either as a single tree, shrub or plant, or as a group. But the right plant to use, or the right group of plants to use, is a question upon which our landscape department stands ever ready to serve you. Do not make the mistake of using the wrong plant or tree.

THE DREAM GARDEN. You have no doubt often dreamt of the garden you would like to have and care for. Making a real garden come true is a matter of selection. The finest products of the world's richest agricultural county are obtained from Barr's Nurseries. Consult our Landscape Department—we are always glad to offer suggestions free of charge to those who have new grounds to lay out or old ones to improve. A charge is made to cover cost of making plans, traveling, etc., which is credited when order is placed with us.

Coniferous Evergreens

BARR'S TREES. The planting of a tree is a ceremony that carries with it some real sentiment. Someone has said that it takes a great man to make a tree grow, but any fool can cut it down. The planting of a tree, when the right tree has been used, is the prophecy of great pleasure in its shade, or in full enjoyment of its color and shape, or many other joys that are attendant from watching it grow and develop into a thing of beauty. Trees have a mission in this world that cannot be described through the medium of words. They must be seen to be appreciated. That you may make no mistake in the selection of the right tree, see that they come from Barr's Nurseries.

Retinospora Plumosa Aurea on the left.

ROSES FOR THE GARDEN

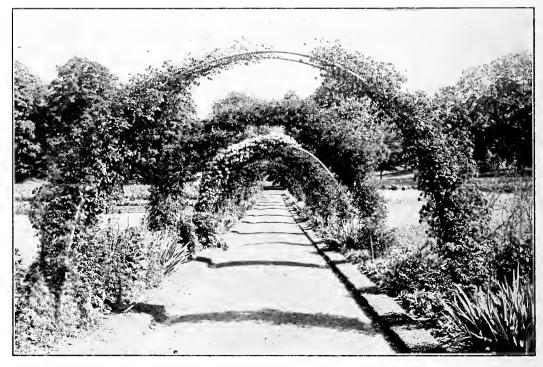

Barr's Selected Hardy Roses

The name of the Rose is an inspiration to garden-lovers, and they are permanent guests in your garden or about your home. We take great care to include in our list only such varieties as are worthy of general cultivation, and are hardy. No other family of plants have in the same genus so many different types and species as has the rose, and we dare say no other plants receive so much admiration. Plant life of all kinds are known the world over to develop to the highest state of perfection in the rich soil of Lancaster County. ROSES are no exception. We offer only home grown, acclimated plants, that are sure to succeed wherever they are planted.

Culture. In preparing your rose-bed spade up the soil to the depth of eighteen inches, incorporating bone meal, and well rotted manure. If the soil is heavy, use six inches of broken stone or rough ashes in the bottom of the bed to insure good draining. All roses object to wet feet. A top-dressing of bone meal or manure twice a month during the growing season will improve both flowers and fragrance.

When to Plant. We recommend spring planting. The plants offered are started in pots, and ready to plant April 15th to July 1st. We guarantee every plant we send out. We offer also a list of dormant plants if ordered prior to March 1st. List price on application.

Location. Roses require a good warm location and plenty of sunshine. In late fall hill up the earth eight inches high around the plants, adding three inches of manure.

The Glory of Blooming Roses encircling the garden walk in June-a joy not soon forgotten.

Hybrid Tea Roses

The following list represents very careful selections. The range of color is complete, hardy, and true to name, monthly bloomers.

American Beauty. Very large and fragrant. Rather delicate; rich crimson.

Caroline Testout. Satiny pink, very large flowers. Excellent habit.

Duchess de Wellington. Intense saffron-yellow, changing to a coppery yellow as the flowers develop.

Gruss an Teplitz. Medium size, intense scarletcrimson. Strong grower, sweet scented and persistent bloomer.

Georgeous. Buds coral-red, shaded with yellow and rose; very beautiful.

MY MARYLAND.

Hoosier Beauty. Rich dark red, fine bedder, and very hardy and fragrant.

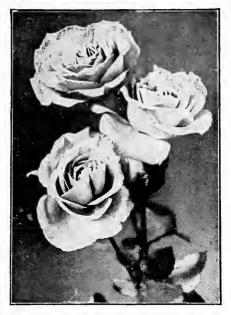

Hadley. Darkest velvet color, fragrant and free flowering.

Joakeer J. L. Mock. Greatly improved La France, imperial pink; wonderful keeping qualities. The flowers are of large size, perfect form and highly perfumed.

Killarney Queen. Deeper pink than Killarney, producing strong stems and long pointed buds.

Killarney White. White, slightly tinted pink, long pointed buds, free bloomer, and no doubt one of the best white roses.

Kaiserine Augusta Victoria. Soft pearly white. Very fragrant and productive.

HOOSIER BEAUTY.

Lady Hillington. Beautiful coppery shade of apricot-yellow, pointed bud, very free flowering.

Lady Pierre. Deep copper reddish-salmon, flushed fawn and copper.

Laurent Carle. Large, sweet scented brilliant carmine.

Lyon Rose. The long buds are tipped coral-red and chrome-yellow at the base; very fragrant.

My Maryland. Very free bloomer; flowers large and double; color bright salmon pink.

JONKEER J. L. MOCK.

Mrs. Aaron Ward. A remarkable floriferous variety of strong, vigorous, but compact, dwarf growth, pointed bud, full double flowers when open. Color a distinct Indian yellow, shaded lighter towards edges.

Mrs. Charles Russell. Long pointed buds, dark rose-pink, one of the best keepers. Very fragrant and beautiful.

Madam Christy Miller. Exquisite silvery pink, one of the best varieties.

Ophelia. Delicate shade of salmon-yellow, shaded with rose, floriferous and beautiful

Radiance. An ideal bedding variety of remarkable free flowering habit, of a brilliant rose-pink. One of the best garden roses; good keeping qualities.

Red Radiance. Rosy-crimson, vigorous and productive, except color same habit as Radiance.

Rhea Reid. Strong grower, and prolific bloomer, carmine rose color. Should be in every collection.

Sunburst. A superb rose, of good, vigorous habit; buds long, cup shaped. Color a rich yellow with orange-yellow center.

Willowmere. Coral - red color, suffused with carmine in bud state, and opens to a large full flower of a rich shrimp-pink.

Wm. R. Smith. Creamy-white with rose shadings. Long pointed buds and an excellent bedder.

Any of the above strong one-year plants, 40 cts. each, \$3.20 per 10. Strong two-year-old potted plants, except where otherwise noted, from five and six-inch pots, \$1.00 each, \$8.40 per 10.

GRUSS AN TEPLITZ ROSES.

Hybrid Perpetual

The following is the cream of a long list of June roses, most of which bloom twice and three times during the summer.

Frau Carl Druschki. Pure white.

General Jacqueminot. Brilliant scarlet-crimson. Mrs. R. G. Sharman-Crawford. Deep rosy pink.

Mrs. John Laing. Soft pink. Paul Neyron. Dark rose; one of the best. Ulrich Brunner. Bright cherry-red; very large.

Any of the above strong one-year-old potted plants, 40 cts. each, \$3.20 per 10. Strong twoyear-old potted plants, except where otherwise noted, from five and six-inch pots, \$1.00 each, \$8.40 per 10.

YOUR GARDEN

- 1 Ophelia, salmon pink.
- 1 Hoosier Beauty, rich dark red.
- 1 Mrs. Aaron Ward, Indian yellow.
- 1 White Killarney.

The above 6 Grand Roses, strong one-year plants, \$2.00 postpaid. Guaranteed to flower this summer.

Hardy Vines and Climbers

On the home-grounds vines fill a distinct need. The pergola, the trellis, the fence, unsightly dead tree trunks or banks need covering. Wherever they can run or climb, vines will transform the place and beautify the surroundings to a degree greatly in excess of their cost.

Those in this list can be recommended without hesitation or explanation. They are all good, no

uncertain ones included.

Potted Plants. For some years we have been growing many of our vines in pots, and those who have secured them in this form have been greatly pleased.

The roots are not disturbed on being planted out, so that quick returns from a vine are always

assured. They can be planted at any time.

The Best Climbing Vines. For walls, arches, and other surfaces the most satisfactory are the Ampelopsis Veitchii, Euonymus, Trumpet Vines, English Ivies.

Rapid-Growing Vines. To shut out objectionable views or produce shade the following are

desirable: Dolichos, or Kudzu, Honeysuckles, and Virginia Crceper. Quantities of less than 5 plants of one variety are sold at Single rates.

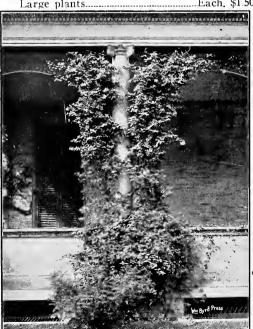

AMPELOPSIS · Ivv

- A. Veitchii. Japanese Ivy. Self-climber. Very well known best of all deciduous vines for clinging to walls of buildings, etc. Rich crimson foliage in the fall is greatly admired. Each. Ten. Potted plants......\$.35 Strong 2-yr. potted plants......\$.50 \$2.80
- A. Lowii. A new Japanese variety possessing all the good qualities of the popular Japan Ivy. The foliage is deeply cut and smaller, giving it a beauty not possessed by any other variety. Each. 2-year potted plants......80c
- A. Virginiana (quinquefolia). Virginia Creeper. "Five-fingered" leaves. Clings to trees, walls and sandy banks. Very graceful and most desirable for natural effects. Hardy, fast grower. Potted 2-year plants......Each, 50c Small plants

ARISTOLOCHIA · Dutchman's Pipe

A. Sipho. Dutchman's Pipe. Dark, broad, rich green leaves. The flowers are shaped much like a pipe. One of the best screening vines. Thrives in heavy soil and smoky localities.

Large plants......Each, \$1.50

HONEYSUCKLE.

BIGNONIA · Trumpet Vine

A glorious display of red and orange trumpetshaped flowers may be expected from this vine. The best vine for covering old stumps or walls.

- B. grandiflora. Chinese Trumpet Vine. The large orange-colored flowers of this vine are sometimes 4 inches across. Self-climber, and not so rampant of growth as the next one mentioned. Strong potted plants, 2-yr.....Each, 75c
- B. radicans. Common Scarlet Trumpet Vine. It is not uncommon to see humming-birds visiting Large plants, 2 yrs. old......75c

CELASTRUS · Bittersweet

C. scandens. American Bittersweet. The scarlet fruit pods are very handsome and showy. Good for covering banks and slopes, when creating natural effects.

Each. Ten. Field grown plants, 2 to 3 ft......\$.75 \$6.00

CLEMATIS

The Clematis is without doubt the most popular There is great range in size and vine grown. color of the flowers, and there are some very unique forms. When purchased, cut the vines off close to the ground and let them start over anew and there will be little or no trouble from Clematis stem rot.

C. coccinea. A herbaceous plant bearing scarlet. bell-shaped blossoms. It has very attractive Each. Ten. foliage. \$8.00 Potted plants\$1.00

C. paniculata. White, Sweet-scented Clematis. A very popular summer-flowering vine. The small, white starry blossoms are borne in profusion in July and Aug., followed by feathery seed. Each.

LARGE-FLOWERING CLEMATIS

The large-flowered Clematis are very popular. We are selling only potted plants, eliminating to a great degree the danger of failure, which has been a great drawback to growing successfully Each. the field-grown plants.

Strong potted plants, 2 yrs. old......\$1.00

Henryi. Grand large single white.

Jackmani. Single purple, most commonly grown. Madame Andre. Large, deep wine-red.

Six Plants of one variety sold at five times the price of one.

DOLICHOS · Kudzu Vine

D. Japonicus (Pueraria). Japanese Kudzu Vine. The fastest growing vine when established, making 12 and 14 inches a day. The rosy purple, pea-shaped flowers are borne in racemes in August Each. Ten. Potted plants.....\$.75 \$6.00

EUONYMUS

These are attractive evergreen vines, with small. neat foliage. The plant clings tightly to rough surfaces. These vines can be developed into bush form by a little pruning, and are highly valuable for edging evergreen beds for foliage contrasts.

E. radicans vegetus. Evergreen Bittersweet. So called because of its masses of red berries hanging to the vines in winter time. A most strikingly pretty decoration on walls or trees. This plant is destined to become exceedingly popular. It will not winter-kill like English ivy, in exposed places; will thrive in any location. Each. Small plants......40c Strong 2-year plants75c

E. radicans variegatus. Variegated-leaved Euonymus. Unusually pretty foliage, variegated white and green. Pot-grown......Each, 35c

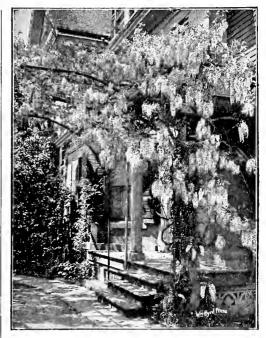

HEDERA · English Ivy

H. Helix. English Ivy. Very attractive effects are possible with this glossy, green-leaved vine, with its foliage remaining summer and winter. It is suitable for a north wall or where it does not get the continual rays of the sun, or under Each. trees. Ten.

3 in. pot plants.....\$.25 \$2.00 4.00

CLEMATIS PANICULATA.

WISTARIA SINENSIS.

LONICERA · Honeysuckle Vine

The exquisite fragrance of the Honeysuckle flowers and the pleasing foliage make them great favorites. The trellis, porch, fence, pergola, bank, and many other places can be made attractive with them. Our potted plants will quickly produce results.

L. Halliana. The rapid-growing Japanese Honeysuckle. Beautiful light green foliage, and many creamy white, fragrant blossoms all summer.

fleshy leaves, and beautiful blossoms about 2

reddish green color. Flower buds red, white on the inside. Pot-grown, 4-in. pots....Each, 50c

LYCIUM · Matrimony Vine

LYCIUM Matrimony Vine. Produces grand display in the fall with its scarlet berries. Excellent for covering banks. Each.

WISTARIA

When well grown and producing a good crop of bloom, the Wistaria is a very beautiful vine. It is especially desirable for trellises, pergolas, and for covering old tree trunks.

W. frutescens. American Wistaria. Flowers later than the W. Sinensis, and the lilac-purple flowers come in dense racemes; dark green foliage. Pot-grown Each, \$1.00

W. Sinensis. Chinese Purple Wistaria. What can be more beautiful than this lovely vine with its drooping racemes of fragrant, rich blue flowers? Pot-grown.....Each, \$1.00

W. Sinensis alba. Chinese White Wistaria. Decidedly beautiful, white-flowering variety of the one above. Pot-grown.....Each, \$1.00 PHILA

Old-Fashioned Hardy Garden **Flowers**

In planting up your home grounds, you should not overlook the old-fashioned flowers that were extensively used in the old-time garden. When once planted they continue to bloom, and increase in beauty each succeeding year. You can use them planted in groups in front of your Shrubbery border, or you can line them along your walks, arranging them in a manner so that there will be something blooming all the time. If you have a large lawn, by all means have a flower garden laid out in beds and planted with these old-time favorites. You will enjoy them the entire summer. You will always be able to have flowers for your table in fine assortment. There is nothing finer that blooms than the gorgeous Peonies. Our three-acre plot, composed of more than fifty varieties, when in bloom is a sight worth going many miles to see. Visitors are always welcome, but in Peony time we surely offer a treat. The beautiful German and Japanese Iris are a good second in this class, followed by the Phlox with their bright colorings, which bloom at a time when other flowers are scarce. We can supply you with an assortment of Perennial flowers for a garden of any size. Our selection is the best it is possible to make. We have been collecting and propagating them for years that we might have a really complete list of choice kinds. The following is Barr's "Absolutely Genuine" list.

- All Perennials, unless otherwise noted, 25 cents each; \$2.00 per 10 of one variety. Five of one variety at 10 rates. Quantities of less than 5 plants of one variety are sold at Single rates.
- ACHILLEA. Boule de Neige. Dwarf compact grower; fine double white flowers in profusion all summer.......30c each; \$2.40 per 10.
- AGROSTEMMA coronaria. Rose Campion. Velvety crimson. June and July. 11/2 to 2 ft.
- ALYSSUM saxatile compactum. Masses of canary yellow. April and May. 9 inch.
- ANCHUSA Dropmorei. A new perennial of great worth. It has gentian-blue flowers, in long sprays, like the Larkspur. June and July. Each.
- **ANEMONE**. Windflower. Flowers resembling a dainty, single rose. The Anemones are second to none for cutting.

- A. Japonica alba. Beautiful, single, pure white.
- A. Japonica, Queen Charlotte. Semi-double, silvery pink.
- A. Rosea Suberba. Semi-double rose color. Extra fine variety. Any of the above, 30c each; \$2.40 per 10.
- AQUILEGIA. Columbine. Too well known to need much description.
- A. Long spurred hybrids; various colors; April to June. 2 to 3 ft.....Each, 30c
- ARABIS. Rock Cress. A fine rock-plant, covering the ground with flowers in early spring.

Six Plants of any one variety at five times the price of one, unless otherwise noted.

DIANTHUS, Sweet William. (See page 39.)
A great favorite among perennials in grandmother time, and just as popular now.

ASCLEPIAS tuberosa. Butterfly Plant. 1 to 1½ ft. Orange. July and August. Bright orange blossoms of great beauty and lasting quality.

Each, 35c.

ASTER. Michælmas Daisy. The Michælmas Daisies are indispensable, because they bloom when the frosts have killed most of the other flowers.

A. amethystinus. 2½ to 3 ft. Clear blue. September and October.

A. Novæ-Angliæ. New England Aster. 3½ to 4 ft. Erect growth. Purple. September and October.

A. Novæ-Angliæ rosea. 3½ to 4 ft. Rosy pink. September and October.

A. Novi-Belgii, "Robert Parker." 3½ to 4 ft. Pale heliotrope. September and October.

A. Climax. Light blue. Most showy of all hardy Asters.....Each, 30c; \$2.40 per 10.

AGERATUM. Blue. An exceedingly beautiful perennial when in bloom, being at its best during August and September, when outdoors flowers are scarce. Fine for cut flowers. The plants grow about 2 ft. in height.

A. White. Similar in growth and habit to the Blue variety, with the exeption that it is of taller growth; the flowers are white, and are fine for bouquets. Flowers in September.

BAPTISIA australia. False Indigo. 2 to 3 ft. Blooms in May and June. Blue. The attractive blue pea-shaped flowers are borne in short spikes. Will stand partial shade.......Each, 30c

BOCCONIA cordata. Plume Poppy. A unique plant, well adapted for shrubbery beds or to plant where a bold group is wanted. White flowers in loose plumes.

BOLTONIA. Starwort. Resembles the Asters. Excellent for massing.

B. glastifolia asteroides. 5 to 6 ft. White. August and September.

B. latisquama. 5 to 6 ft. Pink. August and September

CAMPANULA. Bellflower. A hardy garden is incomplete without a collection of these charming perennials.

C. Medium calycanthema alba. Cup-and-Saucer, or Canterbury Bell. 1½ to 2 ft. Biennial Assorted colors. June and July........Each, 30c

HARDY CHRYSANTHEMUMS

Do not confound these with the large-flowered varieties you buy in the florists' shops. These are hardy ones for the border where they will bloom until very severe frosts have finally killed them.

Our collection consists of many varieties, of every conceivable form and shade of color, so that we have every reason to believe that we have the finest collection in the country.

Brown Bessie. Deep bronze aster type.

Buckingham. Old rose.

Daisy Anderson. Pink.

Excelsior. Deep yellow aster type.

Indian. Indian red.

Jules LaGrave. Large garnet aster type.

Lillian Doty. Large incurved pink.

Skibo. Golden yellow, button type.

Western Beauty. Deep rose pink.

25c each; \$2.00 per 10 of any one variety. Five at 10 rates.

EARLY LARGE-FLOWERING CHRYSANTHEMUMS

These are not quite as hardy as the Pompons varieties. The following list includes the best and hardiest of this type. For the best results they should be disbudded.

Glory of Pacific. Large, early pink.

Polly Rose. Large, extra white.

Unaka. Large, early pink.

Richmond. Large, early yellow.

McNeiss. Large, early pink.

Oconto. Large, early white.

25c each; \$2.00 per ten. CONVALLARIA. Lily-of-the-Valley. The best plant to grow in the shaded spot.

Clumps......35c each; \$2.80 per 10.

ASTER. (See page 55.)

B. F. BARR & CO., LANCASTER, PA.

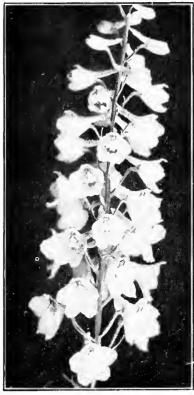

- **COREOPSIS.** The yellow, cosmos-like blossoms come in profusion all summer.
- C. lanceolata grandiflora. 1½ to 2 ft. Yellow. June to September.
- **DIANTHUS.** Scotch Pink and Sweet William. Old-fashioned garden plants.
- D. barbatus. Sweet William. 1 to 1½ ft. Various colors. May to July.
- D. plumarius diadematis. Scotch Pinks. 9 in. Semi-double, clove-fragrant flowers in all colors. May and June.
- **DICENTRA Spectabilis.** Bleeding Heart. Early spring flower, that is most useful for cutting...50c each; \$4.00 per 10
- **DELPHINIUM.** Larkspur. One of the finest sights of modern gardens is a good collection of blooming Larkspurs. Good for cutting.
- D. Gold Medal Hybrids. 2 to 2½ ft. Flowers in varying shades of blue, violet and white.

- **DICTAMNUS.** Gas Plant. A tall, old-time perennial, forming dense clumps of dark green, glossy foliage and splendid flowers.
- D. Fraxinella. 1 to 2 ft. Red. May to July......Each, 35c

GAILLARDIA, BLANKET FLOWER.

Hardy Perennials

DELPHINIUM, LARKSPUR.

- DIGITALIS. Foxglove. Partial to a cool, somewhat shaded position. Attractive old garden favorite. Flowers in showy spikes. Mixed colors.
- DORONICUM plantagineum. Leopard's Bane. Large yellow daisy-like blossoms in early spring. Fine for cutting, each flower lasting an unusual length of time. Each. 30c
- FUNKIA. August, or Plantain Lily. The Day Lilies are very odd, both in flowers and foliage, and thrive well in damp and partially shaded places, but will succeed in almost any locality.
- F. cærulea. 1½ ft. Neat foliage. Blue. July and August.
- **GAILLARDIA.** Blanket Flower. No plant in the hardy flower-garden gives more satisfaction than the Gaillardia. It flowers in great profusion nearly all summer long. The long, dry spells affect it very little.
- G. grandiflora compacta. 1½ ft. Crimson and yellow. Curiously striped "daisies." July to September.

GYPSOPHILA. Baby's Breath. Loose, feathery white flowers, highly suitable for bouquet purposes. Fine for mixing with sweet peas. July and August.......Each, 35c

HELENIUM Riverton Gem. Strong grower, 2½ to 3 ft. high. Covered from the middle of August to the end of October with brilliant gold, terra-cotta flowers, changing as they mature to a wallflower red.

30c each; \$2.40 per 10.

HELIANTHUS. Perennial Sunflower. The perennial Sunflowers, without exception, are good for cut-flowers. They have not the large, coarse heads of the common, annual Sunflower.

H. laetifolis. Large single yellow flowers with downy foliage. 4 to 5 ft. Blooms August and September.

H. Maximiliani. 6 ft. Excellent for fall decorations. Long sprays studded with flowers. Single yellow. September and October.

HELIOPSIS. Ox-Eye. Heliopsis is much like the perennial sunflower. It blooms for a long period in midsummer when flowers are scarce. Good for cutting.

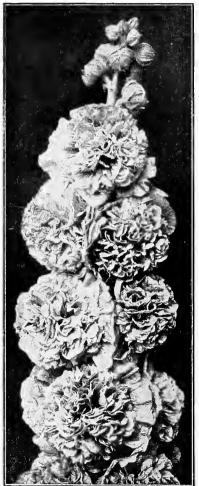

summer when flowers are scarce. Good for cutting.

H. Pitcheriana. 3 to 4 ft. Orange. June to August.

H. Gratissima. 2 to 2½ ft. One of the finest yellows.

A showy plant for the garden or for cut-flowers.

Each. 35c

HOLLYHOCKS.

Do You Get the Maximum Pleasure and Profit From Your Garden?

If not, it is because you have not properly planted it. To know just when and what to plant is not always the knowledge of the amateur. Our many years of experience with all sorts of soils and under all kinds of climatic conditions have given us a knowledge, of which, if you will avail yourself, will be of the greatest assistance to you in getting the maximum of pleasure and profit from your garden. Write our Landscape Division.

H. Zinniaflora. (New Double.) Orange yellow; fine for the border; very showy. 2 to 3 ft. tall.......Each, 35c

HEMEROCALLIS. Day Lily. The Hemerocallis, or bronze and yellow Day Lilies, are among the most popular of hardy plants, and if all the kinds are planted, will give a succession of bloom all summer long. The long stems elevate the showy flowers well above the foliage. Do not confuse with Funkia.

H. flava. Lemon Day Lily. 1½ to 2 ft. A lovely flower, nicely formed, fragrant. Yellow. June.................................Each, 30c

H. Aurantiaca. Large orange yellow flowers. 2 to 3 ft. June and July......Each, 30c

H. fulva fl.-pl., Kwanso. 3 to 3½ ft. Bronze. Double. July and August......Each, 30c

HIBISCUS. Mallow. Hibiscus is best adapted for planting in a damp place, along streams, or in positions where a large, showy plant is required.

H., Red Marvels. Bright red; very showy.

H., Pink Marvels. Soft shades of pink.

H., White Marvels. White and very pale-tinted kinds.

Any of the above Marvels, 2-yr. roots, 50c each; \$4.00 per 10.

HOLLYHOCK. The stately Hollyhock is increasing in popularity. The Allegheny Strain has prettily fringed edges. It was in great demand when introduced a few years ago. We now have a good supply. All kinds flower from June to August and grow 6 to 8 ft.

H., Double. Rosette flowers in white, pink, red, maroon and yellow. Separate color.......................30c each; \$2.40 per 10.

H., Allegheny. Beautiful flowers in all colors—not separate. 30c each; \$2.40 per 10.

LAVANDULA vera. Lavender. The Lavender bears those familiar fragrant spikes of flowers so useful for the linen closet. Gray, evergreen foliage........30c each; \$2.40 per 10.

IRIS · Flag, or Fleur-de-Lis

This flower has justly been called the "Poor Man's Orchid." It is extremely beautiful and can be grown with great ease. No garden is complete without some, and to acquire the Iris habit is to assume a hobby that can be ridden to the heart's content.

Prices of all varieties, 25c each; \$2.00 per ten of one variety.

Aurea. Rich chrome-yellow. A very fine Tris.

Admiral Togo. White, faintly tinged lavender. Extra fine.

Darius. Rich canary yellow; falls lilac margined white.

Eclipse. Velvety claret red, shaded violet; throat markings gold.

Florentine Alba. Waxy white, tinted lilac. Early bloomer.

Gracchus. Crimson, reticulated white; fine early.

L'Innocence. Deep lavender standards; white falls.

Maori King. Golden yellow, margined velvety maroon gold.

Mme. Cherau. Pure white; irregular border clear blue. Tall.

Penelope. White, delicately veined reddish purple.

Kochii. Rich claret purple; handsome.

Rembrandt. Light lavender; falls deeper.

Tinnae. Deep ageratum blue. Trautlieb. The nearest pink Iris, shaded lighter at base.

Five of one variety at 10 rates.

IRIS LAEVIGATA KAEMPFERI Tapanese Iris

Flower in July after the Fleur-de-Lis have long finished their bloom. They prefer moist situa-tions, where they will develop flowers of great size and wonderful colors.

It is useless to list them by their original Japanese names, the very spelling of which is an ordeal. Early, mid-scason, and late varieties. You will be well pleased in any event. For your convenience we have listed these varieties by

numbers.

Prices of all varieties, 35c each, \$3.00 per 10. Please order by number.

No. 1. Light purple; 6 petals.

No. 2. Purple center, white falls; 3 petals.

No. 3. Yellow center, dark purple falls; 6 petals.

No. 4. White and yellow, center and falls; 6 petals.

IRIS.

No. 5. Yellow center, double white falls; 6 petals.

No. 6. Yellow center, dark purple falls; 3 petals.

No. 7. White center and falls; 3 petals.

No. 8. Yellow center, red and white falls 6 petals.

No. 9. Purple veined, white center and falls; 3 petals.

No. 12. Lilac center, veined blue, and white falls; 6 petals.

No. 13. Dark purple, center veined white; 6 petals.

No. 14. Yellow center, veined dark purple and white; 6 petals.

No. 15. Blue, falls veined white; 6 petals.

No. 16. Lilac center, purple veined falls; 3 petals.

Siberian Iris

I. Sibirica. Siberian Iris. Just the Iris for moist situations. Foliage narrow; flowers, though small, come in abundance. Flowers rich blue. 30c each; \$2.40 per 10.

I. Sibirica orientalis, "Snow Queen." Most enchanting, pure white......30c each; \$2.40 per 10

THE BACKYARD FLOWER GARDEN. In every nock and corner, for the border or for the walk, Barr's Perennials and Evergreens are very useful. Consult our Landscape Department for information on the right use of all nursery products.

LILIUM AURATUM.

(Lily)

Swaying their graceful heads in midsummer, filling the air with fragrance and producing wonderful effects, the charming American and Japanese Lilies fill a distinct place in the hardy garden

Lilies should have a good, well-drained soil. Do not use fresh tank manure; it should be wellrotted and liberally mixed with sand and leaf soil. It is a good plan to surround each bulb with sand when planting.

L. auratum. Gold-banded Lily of Japan. Pure white with gold band. Huge flowers. 35c each; \$2.80 per 10.

Madonna Lily. The fine old An-L. candidum. nunciation Lily with tall stems of fragrant, pure white. Tall. Very hardy and lasting. 30c each; \$2.40 per 10.

L. speciosum magnificum. Bright, rich red. 30c each; \$3.00 per doz.

L. speciosum album. White Japanese Lily. All the Speciosums are lovely; flowers on branching stems, gracefully suspended. 35c each; \$2.80 per 10.

LOBELIA cardinalis. Cardinal Flower. 11/2 ft. Most brilliant of all flowers. Might be termed "Hardy Scarlet Sage." Loves moisture. Bright scarlet spikes. August.....30c each; \$2.40 per 10.

LUPINUS. Purple Lupine. These are popular because of their bright display of color. Give fine effect massed in the border. May and June. Each, 35c. LYCHNIS. This genus includes such old friends as the Mullein Pink, Ragged Robin, Maltese Cross, Scarlet Lightning, Flower of Jove and others. Reliable garden plants.

LYTHRUM Salicaria roseum superbum. 2 to 3 ft. Rose. July and August.

35c each; \$2.80 per 10

L. Salicaria roseum superbum. 4 to 5 ft. Rose. July and August......35c each; \$2.80 per 10.

MONARDA didyma splendens. Bergamot. 2 to 3 ft. Bears curious-looking ragged flower heads. Scarlet. July and August.

MYOSOTIS palustris semperflorens. Forget-menot. 6 in. Likes moisture. Blue. April to July.

Five Plants of the same variety supplied at four times the price of one, where 10 rates are not quoted.

SPECIAL OFFER

- 3 Gefion, peach blossom pink.
- 3 Rhynstrom, rose.
 3 Mrs. Jenkins, white.
 3 Wm. Ramsey, crimson.

The above 12 Choicest Phlox, \$2.50 postpaid.

Quakertown, Pa., Oct. 12, 1920.

B. F. Barr & Co., Lancaster, Pa.

Dear Sirs:-

Dear Sirs:—

Received the shipment of stock of you October 2nd and planted them on the following Monday. The trees should grow successfully, as they arrived in excellent condition, and I had the service of an experienced man to plant them.

I am well pleased with the trees, and your plan

makes a very pretty effect.

Respectfully,

CALVIN N. RUTH,

612 Juniper St., Quakertown, Bucks Co., Pa.

The Hardy Border

The old-fashioned garden or hardy border is deservedly the most popular of all ground plantings. Just what to plant and how to plant it, in order to keep a continuation of bloom from frost to frost, is one of the services that our Landscape Division is prepared to deliver. Among the best are the IRIS, PAEONIES, PHLOX, and CHRYSANTHEMUMS. All of these have become extremely popular in all sections of the country. They are also among the easiest perennials to grow. They are wonderfully beautiful in color, come in the season of the year when flowers are in most demand, and we have a list that is unsurpassed for quality. Let us tell you how to build your hardy border.

PEONIES GROWING IN OUR NURSERIES. "THE QUEEN OF SPRING FLOWERS."

Barr's Fragrant Paeonies—The Queen of Spring Flowers

Everyone loves the Pæony. We can all recall the enthusiasm of our grandmothers over the garden "Piney." You can imagine the raptures, if those old people were brought in contact with the splendid Pæonies of to-day.

There was a time Pæony was common Piney. There are common ones to-day, but the later introductions are more in demand every year, displacing the old varieties that have done their duty, finer and better ones taking their place.

They require less care after planted than any other flower, but they will respond abundantly to good care and attention.

They should be planted $3\frac{1}{2}$ to 4 feet apart in good garden soil, and be set so as the eyes or crown will be from $2\frac{1}{2}$ to 3 inches below the surface. Mulch them in the fall.

We advise August, September and October as the best time to plant them, but they can also be planted in the early spring. We sell Pæonies only of our own growing, and not until they are tried out in our nursery, at least three years, and make no pretense to compete with those who have no stock of their own, but only buy and sell them again, with no assurance of their being true to name or quality.

The name and number following the variety indicates the introducer of that variety and the year it was introduced.

POPULAR AND INEXPENSIVE NAMED VARIETIES

Achille, Calot, 1855. Light, flesh colored pink, changing to bluish white; fine large blooms; profuse bloomer. Early.

Alexandre Dumas. Guerin, 1862. Lively, brilliant pink, interspersed with white, salmon and charmois. Early.

PENTSTEMON Digitalis. Beard Tongue. 3 to 3½ ft. Resembles the Phlox. White. June and July.

P. Grandiflorus. Handsome showy flowers of lilac blue. 35c each, \$2.80 per 10.

HARDY GARDEN PHLOX

Phlox Decussata

For all-round reliability the Phlox is not out-

done by any other hardy perennial.

There are varieties of the most vivid crimson, the clearest and softest shades of pink, clear mauves and purples, and snowy white.

Price of Phlox, except where otherwise noted, are 25c each, \$2.00 per 10 of one variety. Five at 10 rates.

Annie Cook. Flesh pink.

Astara. Violet-purple, pure white center, petals undulated.

B. Compte. (Medium.) Brilliant French-purple. with crimson carmine shadings. 35c each, \$3.00 per 10.

Coquelicot. Fine pure scarlet. (Dwarf.)

Elizabeth Campbell. (Medium.) Very light salmon-pink, with lighter shadings and dark crimson eye. The most popular Phlox grown today. 35c each, \$3.00 per 10.

Fernand Cortez. (Tall.) Deep crimson with much darker center, giving a bronze effect. 35c each, \$3.00 per 10.

General von Heutsz. Brilliant salmon. 35c each, \$3.00 per 10.

Independence. (Medium.) Large, pure white.

Jeanne de Arc. (Tall.) A good standard late white. 35c each, \$3.00 per 10.

Mme. Meuret. Flame color, carmine center. (Dwarf.)

Mme. Paul Dutrie. (Dwarf.) A delicate, lilacrose, reminding one of some of the beautiful soft-pink Orchids. 35c each, \$3.00 per 10.

Mrs. Jenkins. (Tall.) The best tall early white for massing. 35c each, \$3.00 per 10.

Pantheon. Brilliant carmine-rose. (Medium.)

Pink Beauty. (Tall.) An enormous spike of beautiful pale pink flowers; very fine. 35c each, \$3.00 per 10.

Rheinlander. (Dwarf.) A most beautiful salmon-pink, with flowers and trusses of immense size. 35c each, \$3.00 per 10.

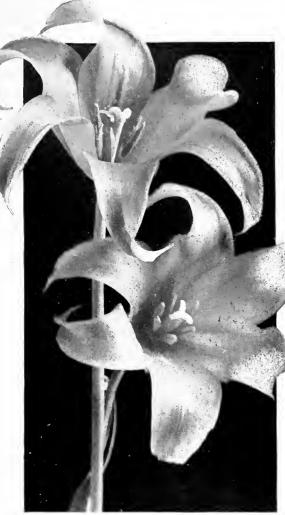

Richard Wallace. White, violet-carmine center. (Dwarf.)

Rynstrom. (Tall.) A great improvement on the popular variety, Pantheon; of the same carmine-rose color as the Paul Neyron rose. 35c each; \$3.00 per 10.

R. P. Struthers. (Tall.) Salmon pink with crimson center. 35c each, \$3.00 per 10.

SHASTA DAISY. (See page 47.)

HAMEROCALLIS AURANTIACA, DAY LILY. (See page 40.)

Thor. (Dwarf.) A most beautiful and lively shade of deep salmon-pink, suffused and overlaid with a scarlet glow. 35c each, \$3.00 per 10.

Tolstoi. (Tall.) Coppery amaranth, carmine red reflex, and blood-red center. 35c each; \$3.00 per 10.

Water Groff. Fine tall salmon-pink; flowers profusely. 35c each, \$2.80 per 10.

Wm. Ramsey. (Medium.) A fine deep crimson. PHYSOSTEGIA Virginica. Obedient Plant. The long-flowering spikes of this fine plant are fine for cutting purposes. Soft pink. 2 to 3 ft.

PLATYCODON. Japanese Bellflower. Have a very long flowering season, lasting from Junc to October. When in bud, the flowers look little like balloons. Very satisfactory perennial. 1 to 2 ft. Blue and White..........Each, 35c

PRIMULA Primrose. The English Primrose with its flowers of every color is a most pleasing border plant. A northern exposure with shade is best. Mixed colors.

PYRETHRUM, fl.-pl. Feverfew. 1½ to 2 ft. Double white button flowers. June to August.

RUDBECKIA. Very free flowering. Snowy blossoms, useful for cutting purposes.

R. laciniata, Golden Glow. 6 to 7 tt. Piowers are double yellow balls. August and September.

R. Newmani. Black-eyed Susan. 1½ to 2 ft. The attractive yellow field daisy with brown eye. Orange. August and September.

R. Subtomentosa. A pyramidal densely-branched plant, 2½ ft. high, which is completely covered with brilliant-lemon flowers with dark purple centers. In bloom during August and September when flowers are scarce.

SALVIA Azurea Grandiflora. Growing 2 to 2½ feet, producing during August and September, sky-blue flowers in profusion. 25c each; \$2.80 per 10.

SHASTA DAISY. 1½ to 2 ft. A Burbank production of merit. Large, white. June to September.

SEDUM Album. White stone crop. July and August......Each, 25c

S. spectabilis. Live-Forever or Showy Sedum. 1 ft. Broad, succulent, gray-green leaves, crowned with bright pink flowers, nicely blending. August and September. Good for bordering beds.

PRIMULA, ENGLISH PRIMROSE.

SPIRÆA. Spireas are all partial to moist places, though such a situation is not necessary for their success. They have loose, feathery flowers, useful for cutting.

S. palmata elegans. 2 to $2\frac{1}{2}$ ft. Superior foliage, pink. June and July.

THERMOPSIS. A very choice, pleasing plant.
Upright spikes of yellow, pea-shaped blossoms.
Might be termed "Yellow Larkspur." Stands
drought very well indeed.

T. Caroliniana. 3 to 4 ft. Yellow. June. 35c each TRITOMA. Red-hot Poker. The most curiously formed head of flowers in cultivation. Flamboyant is a very good description of the flower-heads. July to October. 35c each, \$2.80 per 10.

TROLLIUS. Globe Flower. Dwarf, with flowers like huge buttercups.

T. Asiaticus. 1 ft. Orange. May. 30c each.

VALERIANA officinalis. Hardy Heliotrope. 2 to 2½ ft. Has a peculiar strong fragrance. Rosepink. June and July. 35c each.

VERONICA longifolia subsessilis Hendersonii. 1½ to 2 ft. A grand hardy perennial for everybody. Big blue spikes. August. 35c each.

V. Incana. Bright silvery foliage, with spikes of amethyst-blue flowers. July and August. One foot high. 30c each; \$2.40 per 10.

VINCA minor. Periwinkle, or Myrtle. One of the best evergreen ground covers. Blue flowers. April and May trailing.

HARDY GRASSES

The common striped grass, Eulalia variegata, is very attractive and another form in which the bars run crosswise, is Eulalia zebrina. Very effective results can be secured from the hardy grasses, coming, as they do, in all forms and kinds of foliage.

Interspersed in the shrubbery or perennial border, they are at home.

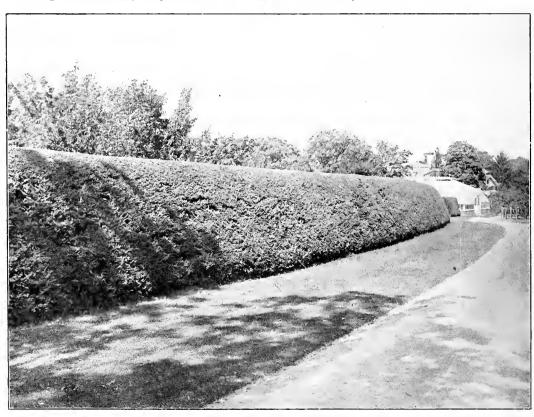

Prices on all Grasses: Root-clumps, 6 in. diam., 35c each; extra heavy clumps, 75c each.

EULALIA Japonica. 6 to 8 ft. Rich, green foliage which waves with the slightest breeze.

E. Japonica gracillima univittata. 5 to 7 ft. Narrow-leaved variety of the one above, very graceful and pleasing.

E. Japonica variegata. 4 to 5 ft. Striped with white variegation, forming an attractive plant when grouped with the green.

E. Japonica zebrina. 5 to 7 ft. Barred with bronze-yellow, and very popular, due to the bizarre effect produced.

PATH EDGED WITH CALIFORNIA PRIVET.

BARR'S NURSERY PRODUCTS are the result of every practice that makes for perfect production. The location of our Nurseries in the world's richest agricultural county, its soil and climatic conditions, develop the best in plants, trees and shrubs. Barr's Nursery products are the ultimate.

LATE CRAWFORD.

Fruit Trees

Fruit-growing as an industry has rapidly advanced in recent years; farmers are getting large returns from this source. The man with a small lot and the suburban lot-owner are also interested. Our fruit trees are the best that can be bought from any nurseryman. They are straight trees of moderate size, are guaranteed true to name, and, if given reasonably good care, will thrive.

INTERIOR OF OUR FLOWER SALESROOM, 116 N. QUEEN ST.

THE HOME OF FLOWERS

OUR CUT-FLOWER DEPARTMENT

To you who desire fresh cut-flowers, whether it be Roses, Carnations, Violets, Chrysanthemums, etc.: We invite you to our cut-flower store, 116 North Queen Street, which is supplied with fresh flowers daily from our green-houses, overcoming any possible chance that you would receive by mistake stale flowers.

BRIDAL FLOWERS

Attractive bouquets for brides and their attendants are made up in a variety of interesting ways from our great assortment of flowers. Our long experience and our expert artists enable us to put out the newest creations for bridal parties.

PARTY AND RECEPTION FLOWERS

There are experienced clerks in our shop who study the wants of our patrons and the latest modes in flowers and bouquets. Our party bouquets are up-to-the-minute creations in the flower-world. The same attention is given whether the order is large or small.

FLOWERS IN MEMORY

We are prepared to furnish pillows, wreaths, and lodge emblems and designs, for such organizations as Masonic, Odd Fellows, Workmen, etc. We make any desired emblem or spray, on short notice, and guarantee satisfaction. We have on hand at all times a complete stock of wire frames for this work.

SEND A FLOWERGRAM :: SAY IT WITH FLOWERS

Through the Florists' Telegraph Association (a mutual arrangement with the leading florists of the country) we deliver flowers in any town or city in the civilized world, on short notice. Where time will permit, letters can be written with no extra expense to the customer; but where time does not allow that, telegrams will be sent at the expense of the customer. If you wish to surprise and please your friends in distant cities, or on board steamships about to sail, you can rely on us to execute your orders promptly and in the best possible manner.

Prices on seasonable flowers or decorations will be given on application. Where time will not permit of correspondence, kindly state the purpose for which flowers are intended, and the price you wish to pay, and your order will be filled with the best flowers available and in the most satisfactory

manner.

Foliage Plants for the House

Physicians prescribe flowers and plants for the sick-room, not alone for the cheering effect they produce, but because they absorb the dry air in our heated homes during the bleak days of winter. Why not then protect our health by the use of growing plants in every home. The more plants we have the better they will thrive, because of the atmosphere containing more moisture, thereby making our home more congenial and a healthier place in which to live.

Their care is a pleasure when one realizes the benefit derived from them. They require repotting only once a year if given a fairly rich loamy soil. This can be done any time during the year, except between September and March, because they are then in a semi-dormant condition, and dis turbing their roots will weaken their growth.

Water them when they need it. A safe plan is to submerge the pot in water once a week Leave them in the water, say five minutes, when you will be sure the soil is thoroughly saturated. after which apply no water until the soil looks dry, then apply enough water to saturate all the soil in the pot. Unless the room is very hot, one or two waterings in addition to the weekly submerging will be a safe plan to go by nine times out of ten. Be sure the drainage is good, and never let your plant stand in water more than ten to thirty minutes at a time.

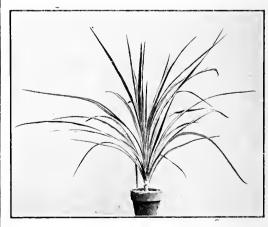

With plants we can furnish all decorations in vases, boxes, pedestals, jardinieres, fancy and ornamental baskets—in fact, everything for the decoration of sun-parlors, piazzas, lawns and interiors of homes or buildings. Our Palms, Ferns, Araucarias, Rubber Plants, etc., are the best. Please inspect our stock, which is choice and large, and gives satisfaction. We pack carefully and ship by express, unless otherwise requested.

BOSTON FERNS.

- ARAUCARIA excelsa. Norfolk Island Pine. The best of the tender evergreens, admirably suited to house culture, as it is not easily affected by gas or dust. Its deep green, feathery foliage is arranged in whorls, one above the other. \$300 to \$4.00 each.
- ASPARAGUS plumosus nanus. Lace Fern. Very graceful climbing Asparagus, with feathery. bright green foliage. 25c to \$1 each.
- A. Sprengeri. Has coarser foliage than the above, and grows in long, graceful sprays of rich green. An attractive decorative plant, for hanging-baskets, pots or window-boxes. 25c to 50c.
- ASPIDISTRA variegata. Foliage striped with white. A superb variegated plant; no two leaves alike. Will stand much neglect and abuse. \$1.50 to \$3 each.
- **CROTONS.** These cannot be excelled for beauty of form and richness of coloring. They are adapted for outside bedding and for interior decorations. We can supply the best varieties. \$1 to \$5 each.

- C., Lord Wolseley. Long, narrow, recurving foliage, which colors to a very bright rosy crimson \$1.00 to \$3.50 each.
- DRACÆNA indivisa. Long, slender foliage; much used in vases. Stands full sun exposure and grows vigorously. \$1.00 to \$3.00 each.
- D. terminalis. Brilliant crimson foliage, suffused and marked with pink and white. An exceptionally beautiful pot-plant for home adornment. \$1.00 to \$2.00 each.
- FERNS, Adiantum Croweanum. The hardiest Maidenhair Fern for home culture. Its attractive, broad leaves and thin, wiry stems create an effect not possible with other Ferns. 25c to \$1.00 each.
- F. Cibotium Schiedei. The most attractive large Fern. It has graceful, drooping light green fronds. The best Tree Fern in cultivation. \$2.50 to \$5 each.
- F. Nephrolepis Bostoniensis. Boston Fern. An immensely popular plant, on account of its very graceful, robust habit and hardiness. 50c to \$5.

DRACAENA INDIVISA.

KENTIA FOSTERIANA.

- F., N. Roosevelt. A new type of the Boston Fern, and is a great favorite. Its fresh, green fronds are very graceful. Compact habit. 50c to \$3.
- F., N. Whitmanii. The Ostrich-Plume Fern, has finely divided, feathery fronds. 50c to \$2.50.
- Miniature Ferns. We have all the choicest varieties for Fern-dishes, from 2½-inch pots. 15c each, \$1.50 per doz.

Our collection of Ferns is one of the largest in this country, and we can furnish nearly any variety in the various sizes.

- PALMS, Kentia Belmoreana. The Kentias are the hardiest Palms for house culture. will grow where few other plants would live. \$1 to \$10 each. Large specimens in tubs. Prices will be quoted on application.
- P. Kentia Forsteriana. Very similar to Belmoreana, but of stronger growth and broader, heavier foliage. \$1 to \$10 each. Large specimens, prices on application.

CHARLES I. LANDIS A. B. HASSLER Additional Law Judge Presiding Judge SECOND JUDICIAL DISTRICT Judge's Chambers

My dear Mr. Barr:—

You request me to give you a testimonial concerning the effectiveness of your work as a gardener and the quality of the stock which you furnish, and I think the best way to do this is to give my own experience.

You will recall that, in 1908 and 1909, the Commission to build the Stevens Industrial School, of which I was chairman, undertook to lay out the ground around it, consisting of eight acres. Mr. Oglesby Paul, of Philadelphia, made the plan, and the next thing which confronted us was to contract with some competent man to carry it out. Fortunately, we not only secured your services, but we also purchased from you our plants. It is needless to say that the work was well done. Any one looking at our beautiful grounds can come to no other conclusion.

I have purchased plants and trees from you since that time, as you know, with similar satisfactory results. I remain,

Very truly yours,

CHAS, I. LANDIS.

To Messrs, B. F. Barr & Co.

Lancaster, Pa.

PANDANUS Veitchii. Screw Pine. A very decorative house-plant, with pleasing, gracefully curving leaves, broadly striped with creamy white. Makes a pleasing table decoration when its pot is hidden by vines or other greenery. The Pandanus requires the same treatment as the Dracæna, but is better adapted to house culture than is that plant. \$2.50 to \$5.00 each.

HANGING-BASKETS. A well-filled hangingbasket of ferns and other decorative plants is an attractive adjunct to the living-room. Baskets filled with these grow more beautiful each week, and are more satisfactory than with flowering plants. \$3.00 to \$5.00 each.

Ravine, Pa., Dec. 1, 1920.

B. F. Barr & Co., Lancaster, Pa.

Gentlemen:-

Which makes a total amount for both orders of......\$53 33

I beg to acknowledge the receipt of shipment in good condition, and also that the Board of Trustees, as well as the other party, were well pleased with the Hedges, and should we ever happen to be in the market for some more we shall be glad to call your attention.

Please acknowledge receipt of, and oblige,

Yours truly,

MR. RICHARD BARR, Box 11, Ravine, Pa.

AN EFFECTIVE DECORATION FOR ANY HOME.

ALL PALMS ARE OF HIGH DECORATIVE VALUE. THERE ARE MANY VARIETIES; THEY ARE MAJESTIC, YET GRACEFUL, AND NO OTHER PLANT GIVES THE SAME EFFECT

Barr's Large-Flowered Cannas

No other bedding plant will give such uniform good results in our varied climate. They do well in all sections of the country, and respond quickly to good treatment. For best results a liberal supply of well-decayed manure should be used in preparing the bed, and a liberal supply of water be given them during the season. Set the plants 18 inches apart.

We have an excellent stock of Cannas of the best varieties in 4-in. pots, 12 to 18 inches high, ready to plant, which will save much time for the purchaser. All our Cannas are grown in this way, thus producing an immediate effect.

Where ten rates are not quoted we will supply five plants of the same kind at four times the price of one. This rule applies to any plants or trees listed in this catalog.

Florence Vaughan. Green foliage. Flowers rich golden yellow, thickly spotted with bright red. 3 ft., 25c each, \$2.50 per doz.

King Humbert. In this grand Canna we have a combination of the highest type of flowers with the finest bronze foliage. Its flowers measure 6 inches in diameter, produced in gigantic trusses, a brilliant orange-scarlet with bright red markings; foliage broad and massive, of a rich coppery-bronze. 5 ft., 25c each, \$2.50 per doz.

Mrs. Alfred F. Conard. A most remarkable variety, with exquisite salmon-pink flowers of largest size in erect and abundantly furnished heads, freely produced; 4 ft. 25c each; \$2.50 per doz.

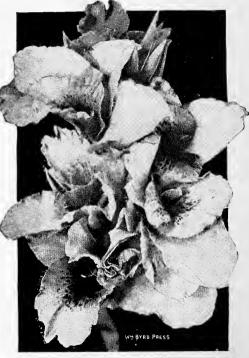

Meteor. A magnificent bedding variety, of strong robust habit, with green foliage and enormous trusses of large, bright blood-red flowers freely produced well above the foliage; 5 ft. 25c each; \$2.50 per doz.

Richard Wallace. Green foliage; canary yellow; large flowers. 4½ ft., 25c each, \$2.50 per doz.

Rosea Gigantea. Large flowers, borne in such abundance that the mass of color on each plant is truly amazing; individual petals are $2\frac{1}{2}$ inches across; a deep, rich rose. 4 to 5 ft., 30c each, \$3.00 per doz.

Uhlberg. Entirely distinct and one of the freest-flowering varieties we have ever grown. The flowers expand very full and are of a soft rosycarmine; the throat of the flower is of a

creamy-yellow and the edges of the petals, which are slightly crimped, are also pale yellow. 3 ft., 25c each. \$2.50 per doz.

KING HUMBERT.

PLANTING TABLE. The table below shows the number of plants required to fill a circular bed of the dimensions given. In planting begin outside row—where 6 inches apart, 3 inches from edge of bed; where 12 inches apart, 6 inches from edge of bed. It is customary among professionals in planting a bed to set the plants somewhat closer together in the two outer rows, giving more space between each plant towards the center of the bed.

Diameter of bed.	6 in. apart.	12 in. apart.	18 in. apart.	24 in. apart.	30 in. apart.	Diameter of bed.	6 in. apart.	12 in. apart.	18 in. apart.	24 in. apart.	30 in. apart.
3 feet 4 " 5 " 6 " 7 " 8 " 9 " 10 "	12 48 80 112 152 200 256 320 380	7 12 20 28 38 50 65 80 95	8 13 17 23 28 36 42	7 9 12 16 20 24	13 16	12 feet 13 " 14 " 15 " 16 " 17 " 18 " 19 " 20 "	452 528 612 704 804 904 1016 1132 1256	113 132 153 176 201 226 254 283 314	50 59 68 78 89 100 113 126 139	28 33 39 44 50 57 63 71	18 22 25 25 32 36 40 46 50

NOTE.—A square bed will take about the same number of plants. For an oval bed, add length and breadth and divide by 2. For example, an oval 7 feet long by 5 feet wide will require the same number of plants as a circular bed 6 feet in diameter.

BEDDING PLANTS

We grow only plants of merit, and they are sure to please the purchasers. Our success in growing fine plants is conspicuous, and our product is known throughout Pennsylvania as being the best that can be produced. Varieties marked with a star (*) are especially adapted for bedding purposes. Those marked with two stars (**) are best for borders. All marked with a double dagger (‡) will be in bud or bloom at time of shipping.

ACHYRANTHES.** Red-and-yellow leaves. 3-inch pots, \$1.50 per doz.

AGERATUM, Blue Perfection.* Bright blue. 3-inch pots \$1.50 per doz.

ALTERNANTHERA.** Dainty foliage plant for carpet-bedding. 2½ inch pots, \$1.50 per doz.; \$8.00 per 100.

ALYSSUM, Little Gem.** Dwarf; for edging. \$1.50 doz

ANTIRRHINUM. Snapdragon.* Pink, white, red, yellow 3 inch pots, \$1.50 per doz.; \$10.00 per 100.

ASTERS. One of the most popular flowering plants. Strong seedlings, 35c per doz.; \$2.50 per 100.

BEGONIA, Rex. Begonias are invaluable for house culture; they make excellent plants for baskets or vases. 4 inch pots, 50c each.

B. Gracilis luminosa.* Pink, one of the choicest bedding sorts. 3 in. pots, 35c each; \$3.00 per doz.

B. Gloire de Chatelaine.* A brilliant pink bedding sort. 3 in. pots, 35c each; \$3.00 per doz.

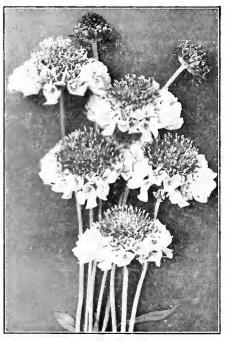

SNAPDRAGON.

B. Vernon.** Flowers beautiful, deep rose. 3 in. pots, 35c each; \$3.00 per doz.

CALADIUM.

Elephant's Ear.*
A fine, subtropical plant. 35c each; \$3.00 per dozen.

SCABIOSA, MOURNING BRIDE.

COSMOS, Early Dawn.* Large-flowering; very early; lavender. 35c per doz.; \$2.50 per 100.

C. Late-flowering. All colors. 35c each; \$2.50 per 100.

COBÆA scandens. Cup-and-Saucer Vine. Rapid-growing climber. 3½ in. pots, 35c each; \$3.00 per doz.

COLEUS.** Separate or mixed colors. 2½ in. pots. \$1.50 per doz.; \$10.00 per 100.

C. Mammoth-leaved.* 10c each; \$1.00 per doz.

CALENDULA, Orange King. Pot Marigold.* 35c per doz.; \$2.50 per 100.

CARNATIONS.‡ Red, pink and white. 2½ in. pots, \$2.00 per doz.; \$18.00 per 100.

CELOSIA. Cockscomb.* New plumed varieties, 2½ in. pots, \$1.50 per doz.

CELOSIA. Chinese Wool Flower. A novelty of great merit. The plants are literally covered with crimson balls of chenille texture, and commence blooming when quite small, and continue until freezing weather. The first balls remain in good condition the entire season. \$1.50 per doz.; \$10.00 per 100.

CHRYSANTHEMUMS. Our list contains the most improved sorts. See Perennials.

- DRACENA. Good for center of beds or vases 5 in. pots, \$1.50 each; 6 in. pots, \$2.00 each.
- ECHEVERIA. Hen-and-Chickens.** Used for carpet-bedding. \$1.50 per doz., \$12.00 per 100.
- FEVERFEW* Double, white flowers. 4-in. pots 25c each, \$2.50 per doz.
- FORGET-ME-NOT.* 3-in. pots, 15c each; \$1.50 per doz.
- FUCHSIAS.‡ For window pot-plants or shady spots in the garden. 4 in. pots, 25c each, \$2.50 per doz.
- GERANIUMS.‡ Our selection contains the best and latest improved varieties. Red. Pink, and White. 4 in. pots, 25c each, \$2.50 per doz., \$18.00 per 100; 3 in. pots, 15c each, \$1.50 per doz., \$12.00 per 100.
- G. Ivy-Leaf.* Desirable for porch- or window-boxes. 4 in. pots, 25c each, \$2.50 per doz.
- G. Nutmeg.* Scented foliage. 3-in. pots, 20c each; \$2.00 per doz.
- G. Rose, or Sweet-scented. 3-in. pots, 15c each; \$1.50 per doz.
- HELIOTROPE.* Small, fragrant, blue flowers in clusters. 25c each, \$2.50 per doz.
- IPOMŒA Quamoclit hybrida. Cardinal Climber. A beautiful and brilliant annual climber; strong and rapid grower, attaining a height of 30 ft. or more; fern-like, laciniated foliage; cardinal-red flowers from midsummer till frost. 25c each \$2.00 per doz.
- IVY, English. 3 in. pots, 25c each, \$2.50 per doz. Large piants, 4 in. pots, 50c each, \$4.50 per doz.
- I. German. Fast-growing; good for baskets. 3½ in. pots, 15c each, \$1.50 per doz.
- LANTANA.** Three colors. 3 in. pots, 20c each, \$2.00 per doz.
- LOBELIA.** Small, deep blue flowers. 2½ in. pots, 15c each, \$1.50 per doz.
- L. Trailing. 2½ in. pots, 15c each, \$1.50 per doz.
- LONICERA. Honeysuckle. Fine for boxes or vases. 4 in. pots, 25c each, \$3 per doz.
- MARGUERITE DAISY, Queen Alexandra.*‡ White flowers. 4 in. pots, 25c each, \$2.50 per doz.
- M. Mrs. F. Sanders.*‡ Double, pure white, 3 in. in diameter. 4 in. pots, 25c each, \$2.50 per doz.
- M. Yellow. Paris Daisy.*: 4 in. pots, 25c each, \$2.50 per doz.
- MOONFLOWER VINE. Ipomæa maxima. Pure white flowers. 4 in. pots, 25c each, \$2.50 per doz.
- NASTURTIUM, Dwarf Mixed.* 2½ in. pots, 15c each, \$1.25 per doz., \$9.00 per 100
- **PANSIES, Mixed.****‡ 75c per doz; \$5.00 per 100.
- PELARGONIUM. Lady Washington Geranium. 4 in. pots, 25c each, \$2.50 per doz.
- PETUNIAS, Single.*‡ Pink and blue. 3½ inch pots, 15c each, \$1.50 per doz.

- P. Single, California Giants, Fringed.*‡ Mixed colors. 3½ in. pots, 15c each, \$1.50 per doz.
- P. Double.*‡ Fine sorts. 4-in. pots, 25c each; \$2.50 per doz.
- RICINUS. Castor Bean. This plant has enormous leaves. 4 in. pots, 15c each, \$1.50 per doz.
- SALVIA, Bonfire. Scarlet Sage.* Effective for bedding. 3 in. pots, 15c each, \$1.50 per doz.
- SCABIOSA. Mourning Bride.* The beautiful flowers come in all shades, and borne on long stems. 2 in. pots, 75c per doz., \$5.00 per 100.
- STOCK, Ten Weeks'. Gilliflower. 3½ in. pots. 20c each, \$2.00 per doz.
- TRADESCANTIA. Wandering Jew. Green and variegated. 3 in. pots, 15c each, \$1.50 per doz.
- VINCA, Variegated. For vases or for trailing over the edge of window-boxes. 3 in. pots, 20c each, \$2.00 per doz.; 4 in. pots, 30c each, \$3.00 per doz.
- VERBENA, Assorted Colors.** Fine bloomers. 2½ in. pots, 15c each, \$1.50 per doz., \$3.00 per 100.
- V. Lemon. Pale green, fragrant foliage. 4 in. pots, 35c each, \$3.00 per doz.
- ZINNIAS.* Popular summer-flowering annuals. Transplanted from flats, 30c per doz.

GERANIUM.

DAHLIAS

Cultural Notes.—Select a well-drained position where the plants will receive the benefit of the sun the greater part of the day. Dahlias are not particular as to soil except that it should not contain too much clay; if such is the case, add coarse sand or coal-ashes.

The planting of dormant bulbs in this vicinity should be about May 15 to 25. Green or growing plants should not be set until after all danger of frost is over, which is about June 1.

CACTUS DAHLIAS

This type of Dahlia is characterized by long, narrow, pointed and twisted petals, giving the layered flower a very striking appearance.

Countess of Lonsdale. Pleasing blending of salmon-pink and amber. Free-bloomer.

General Butler. Rich velvety maroon, white tips. Kriemhilde. Brilliant pink, shading to white.

Libellule. Sulphur-yellow shaded with capucinered, free flowering.

Prince of Yellows. Rich canary-yellow.

Any of above varieties, 35c each; \$3.50 per doz. Kalif. A true majestic flower, frequently measuring 9 in. in diameter; perfect cactus form; in color a pure scarlet. \$1 each.

SHOW DAHLIAS

The following have the large, round, full-flowered characteristics of the Show class. They are either solid colors, edged or tipped lighter or darker.

A. D. Livoni. Fine clear pink; free-flowering and perfect form. 35c each, \$3.50 per doz.

DECORATIVE DAHLIA, A. D. LIVONI.

MRS. CHARLES L. SEYBOLD.

Grand Duke Alexis. Ivory-white; large, massive flower, tinted rose. 35c each, \$3.50 per doz.

Princess Victoria Louise. Pure canary-yellow. 35c each, \$3.50 per doz.

Queen of the Yellows. Clear primrose-yellow; of fine form. 35c each, \$3.50 per doz.

Red Hussar. Brilliant cardinal-red; of perfect form. 35c each, \$3.50 per doz.

Delice. Pleasing pink; profuse bloomer. 35c each.

DECORATIVE DAHLIAS

This class comprises those that depart from the formal rounded type of the Show class.

C. W. Bruton. Bright yellow; one of the best. 35c each, \$3.50 per doz.

Jack Rose. Brilliant crimson-red. 35c each; \$3.50 per doz.

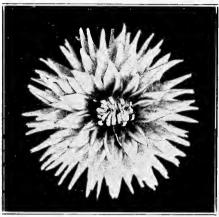

Mme. Van den Dael. Soft rose center, shading to white. 35c each, \$3.50 per doz.

Perle. Perle de la Tete d'Or. Glistening pure white; fine for cut-flowers. 35c each, \$3.50 doz.

Souvenir de Gustave Doazon. Brilliant orangescarlet; free-bloomer; very large. 35c each, \$3.50 per doz.

Sylvia. Soft pink center, shading to white; fine for cutting. 35c each, \$3.50 per doz.

Golden West. Large, bright canary-yellow blooms. 50c cach; \$5.00 per doz.

COUNTESS OF LONSDALE.

NEW CENTURY SINGLE DAHLIAS

These are of the free-branching habit, flowering early and profusely throughout the season. Flowers 4 to 6 ins. across, on long stems.

Crimson Century. Rich, velvety crimson.

Scarlet Century. Brilliant scarlet.

Twentieth Century. Rosy crimson; the flowers change lighter as the season advances.

White Century. Pure white, with large petals.

Price of above Single Dahlias, 35c each; \$3.50 per doz.

PEONY FLOWERING DAHLIAS

Mrs. Charles L. Seybold. Bright pink, each petal tipped white. One of the best early varieties for cut flowers. 35c each, \$3.50 per doz.

DAHLIAS IN FINE MIXTURE

Comprising many of the very best varieties. 20c each, \$2.00 per doz., \$15.00 per 100.

OUALITY GLADIOLI

The Gladiolus prefers a well-drained sandy loam, but it will succeed in heavier soil. For the best results the ground should be well fertilized with stable manure, turned under the previous fall and a little more manure worked into the soil the following spring. Planting can be commenced in April and, to insure a succession of bloom, make more plantings every ten days or two weeks until July 1. Use large bulbs, setting them 4 ins. deep; if smaller bulbs are used, 3 ins. is deep enough, 6 ins. apart

NEW AND RARE SORTS

America. Soft flesh-pink; in coloring and makeup re sembling the orchid; one of the best for cutting or bed ding; strong grower.

ding; strong grower. **Baron Hulot.** Deep violet-blue; well-opened flowers \$1.00 per doz.

Brenchleyensis. The most effective scarlet for massing \$1.00 per doz.

Empress of India. A rich, dark red; one of the best of recent novelties.

Glory of Holland. White, with slight tinting of pale pink; anthers of delicate lavender. Blossoms large. Halley. Early-blooming; large, well-opened flowers of

Mrs. Francis King. A striking shade of light scarlet or flame-color; effective both in the border or when cut

delicate salmon-pink.

Niagara. A light crocus-yellow, throat shaded deeper Large, open flowers on a strong spike. For color, togeture and keeping qualities this is one of the best.

Panama. This new pink has created a sensation on ac count of its large wide-open wax-like mauve-rose flowers

Willy Wigman. Large, wide-open flower. A beautiful blush-tint, with long, bright tulip blotch on lower petals Cne of the most attractive Gladioli on the market

Prices of Above Varieties:

Mammoth size bulbs—\$1.50 per doz., \$10 00 per 100. Second size bulbs—75c per doz., \$5.50 per 100. Not less than five of one variety sold at dozen rate, or 25 at 100 rate.

Mrs. Frank Pendleton. Lovely salmon-pink with brilliant deep red blotches in the throat. Exquisite in every way First size bulbs—\$1.75 per doz., \$11.00 per 100. Second size bulbs—\$1.10 per doz., \$7.00 per 100.

Schwaber. Pure canary yellow, shading to soft yellow Produces a very strong stem and productive. First size bulbs—\$2.10 per doz., \$13.00 per 100. Second size bulbs—\$1.50 per doz., \$10.00 per 100.

STANDARD MIXTURE

Contains good varieties of all colors, and will give general satisfaction.

First size bulbs—75c per doz., \$5.00 per 100. Second size bulbs—50c per doz., \$3.00 per 100.

AMERICA, GLADIOLI.
One of the Best for General Planting.

A BEAUTIFUL TURF CAN BE MAINTAINED IN FULL SUN OR UNDER TREES WHEN BARR'S SPECIAL BRAND SEED IS USED.

Barr's Special Grass Seed

An attractive lawn adds greatly to the charm of one's home. Whether it be large or small, that lawn should be the best. It must not show bare places and weedy patches. It should be one solid

mass of the same tone of green.

To get such a result, good deep well prepared is a very necessary foundation. Plant-food must be available in large quantities and the soil must be sweet; sour soil will not grow a good blue grass sod. Too much shade is harmful, but this can be overcome to some extent by using the proper mixtures. "Fall grass" is a great pest. It can be held in check, however, by keeping it so closely cut that it will not go to seed. Then in the fall, when the frost has killed it, rake out the dead plants, stir the soil a little, and sow in some good grass seed.

BARR'S SPECIAL GRASS SEED MIXTURE.

The kind to use is the great question. There are on the market mixtures and blends described in formulas with fancy adjectives, which will give various results according to what they contain. If you select Barr's Grass Mixture, you will get results. It is an honest, dependable mixture, suitable to a wide variety of situations.

Barr's Special NEVER DIE Grass Seed is a combination of the best grasses, adapted to our soil and climate, and mixed in such proportion as to give the best results. Barr's Grass Seed Mixture is the successful outcome of these experiments. When it is only a small bare spot, scratch it up with an iron-toothed rake, scatter an abundance of seed and roll it in. 1 qt., 30c; 1 bus. (20 lbs.), \$6.00. One quart will sow 300 sq. ft.; 5 to 6 bushels to the acre.

BARR'S SHADY LAWN GRASS SEED. Why not get as good results in the shaded places as in the open? Kentucky Blue Grass will not make a sod there, but Barr's Shady Lawn Grass Seed will succeed in just such situations and give you as satisfactory results in shaded places as Barr's Grass Seed Mixture will in the open. 1 gt., 40c; 1 bus. (20 lbs.), \$7.00.

EVERY LAWN NEEDS FEEDING

"A stitch in time saves nine" is true of the lawn as of other things. Do not wait until the lawn has a "run-down-at-the-heel" appearance; feed it regularly and liberally, and have a good lawn all the time. We have in stock high-grade fertilizers for feeding lawns. All the leading brands worth

while we can supply.

BARR'S CANADIAN WOOD-ASHES. Good lawn grasses will not succeed in sour soil. Woodashes correct that. We have as good unleached Wood-ashes as money can buy. If bone meal has been sown in the land, do not use the Wood-ashes for three or four weeks. 50 lbs., \$1.50; 100 lbs., \$2.75; 1 bbl. (200 lbs.). \$5.50. We can quote very low prices on carload lots. One pound will sow $10 \text{ sq. ft.}, 1\frac{1}{2}$ to 2 tons to the acre.

BARR'S PURE BONE MEAL. By its odor shall ye know it, but do not let its fragrance prevent you from using our Bone Meal. The undesirable odor will soon disappear after the Bone Meal has been spread upon the lawn. This, together with the wood-ashes, should result in giving you a very attractive lawn. 25 lbs., \$1.25; 50 lbs., \$2.25; 100 lbs., \$4.25. One pound will sow 10 sq. ft.;

11/2 to 2 tons to the acre.

BARR'S HUMUS. Nature's plant food. Used as a top dressing, or mixed with the soil when making Rhododendron or Azalea bed. 100 lbs., \$200; 500 lbs., \$900.

BARR'S LIME, Hydrated. For lawn and field use where the ground has become sour. 100 lbs., \$1.75.

BARR'S SHEEP MANURE, Pulverized. A pure natural manure, for lawns, potting soil, general vegetable and flower garden, where quick as well as lasting results are wanted. 5 lbs., 35c; 10 lbs., 60e; 25 lbs., \$1.00; 50 lbs., \$1.75; 100 lbs., \$3.25; 500 lbs., \$15.00.

Barr's Flower Seeds

A LIBERAL SOWING OF THESE TO INSURE ABUNDANCE OF BLOOM ALL SUMMER

We list only the most popular sorts, and varieties that are not difficult to grow.

Any mellow soil will grow beautiful flowers from seed. Exercise care that the seeds are not covered deeper than the seeds themselves. Cover the ground with paper during the day until the plants come up, and be careful the ground does not become dry while the seeds are germinating, or while the plants are small. The soil should be kept moist, not wet.

Do not allow plants to stand too thickly; transplant, if necessary. If crowded they cannot grow or bloom satisfactorily.

Plant seeds outdoors about the time the fruit trees are coming into bloom. By starting tender seeds indoors, in window-boxes, hotbeds, or cold-frames and by transplanting, you can have your plants earlier. Sweet Peas should be planted on or about St. Patrick's Day for best results.
